Psychosomatic Medicine Interest Groups 2005-2008

American Psychosomatic Society • Lawson Wulsin, MD, Leo Pozzuolo, MD

Cleveland Clinic

The University of Pittsburgh has held the APA for 5 years. For the first time in 2007, we received funding from the APA and were able to attend a national conference for the first time. APA is a wonderful organization and has been very helpful in providing resources and guidance for the group. Our first meeting was held in Pittsburgh and included a presentation on the topic of "The Psychosomatic Medicine Interest Group: Past, Present, and Future." We also had the opportunity to meet with APA representatives and discuss future plans.

University of Arizona

The University of Arizona has a long tradition of dedication to the field of psychosomatic medicine. The department is committed to the advancement of knowledge in this field and has a strong focus on research and education. Our interest group is actively involved in organizing and participating in national conferences, as well as in local events and workshops. We are committed to promoting the use of evidence-based practices and to fostering collaboration among professionals in the field.

University of North Carolina

The University of North Carolina is one of the leading institutions in the field of psychosomatic medicine. The department is known for its research excellence and has a strong commitment to education. Our interest group is actively involved in organizing and participating in national conferences, as well as in local events and workshops. We are committed to promoting the use of evidence-based practices and to fostering collaboration among professionals in the field.
