Welcome to San Antonio

Welcome to the 69th Annual Meeting of the American Psychosomatic Society in historical San Antonio, Texas, founded in 1691. The theme of this year’s meeting, Biobehavioral Processes and Health: Understanding Mechanisms, Implementing Interventions, is timely because the Society is increasing its efforts at better identifying biobehavioral interventions that are effective and that can be readily disseminated into healthcare practice. Further, the mechanisms underlying such interventions will need to be understood. The Program Committee has compiled a diverse and comprehensive program to address this year’s theme, with numerous exciting and informative plenary sessions and symposia. If you are able to find some time to explore San Antonio, you might consider a stroll along the picturesque and relaxing San Antonio River Walk, which is adjacent to the hotel. It is lined with bars, shops and restaurants, and provides easy access to the San Antonio Museum of Art. For further adventures, there is the Tower of the Americas and the historical Alamo Mission. I hope you will enjoy San Antonio as the site of our meeting!

Meeting Objectives

At the conclusion of this meeting, participants will be able to:

1. To describe how psychosomatic medicine oriented basic science and research may be translated into the development and implementation of randomized controlled trials (RCTs) of interventions to improve health outcomes in chronic and life-limiting illness.

2. To describe the biological mechanisms by which biobehavioral interventions may improve clinical health outcomes in major chronic and life-limiting illnesses.

3. To explain the psychological, social, behavioral, and functional mechanisms by which psychosocial interventions may impact physical health outcomes in chronic diseases.
About APS
The American Psychosomatic Society is an organization devoted to biopsychosocial research and integrated clinical care, and to providing a forum via its Annual Meeting and journal, *Psychosomatic Medicine*, for sharing this research. Its members are from around the world, including specialists from all medical and health-related disciplines, the behavioral sciences, and the social sciences. Membership information is available at the APS Registration Desk.

Appreciation
APS would like to thank the following for their financial contributions to the success of this meeting: Donald Oken, MD; the friends and family of Patricia R. Barchas, PhD; the friends and family of Alvin P. Shapiro, MD; the friends and family of Herbert Weiner, MD; the friends and family of Paul D. MacLean, MD; The Cousins Center for Psychoneuroimmunology at the UCLA Neuropsychiatric Institute; and the National Institutes of Health.

Continuing Education
Physicians
**Accreditation Statement:** This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the Institute for the Advancement of Human Behavior (IAHB) and the American Psychosomatic Society. The IAHB is accredited by the ACCME to provide continuing medical education for physicians.

**Credit Designation Statement:** The IAHB designates this live activity for a maximum of 29.5 *AMA PRA Category 1 Credit(s)™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Psychologists:** This course is co-sponsored by Amedco and the American Psychosomatic Society. Amedco is approved by the American Psychological Association to sponsor continuing education for psychologists. Amedco maintains responsibility for this program and its content. Maximum of 29.5 hours.

**Satisfactory completion:** Participants must complete an evaluation form in order to receive a certificate of completion. Your chosen sessions must be attended in their entirety. Partial credit of individual sessions is not available.

Book and Journal Showcase
One benefit of APS membership is the opportunity to display your published books or journals at the meeting. A book display table will be available in the registration area where you may display a copy of publications edited or authored by you. **Please note:** All publications (and the security for them) are the responsibility of the person displaying them.

Job Board
An opportunity available to all members during the Annual Meeting is the “Positions Available Networking Board.” Recognizing that members seeking positions and members seeking to fill positions use the Annual Meeting as a time to generate leads, interviews, and make hiring decisions, we have arranged for a special bulletin board in the registration area for “positions available” and “positions desired” announcements. Whether you are hiring for an open position, or looking for an appropriate opening for yourself or for a colleague, stop by the Job Board!

APS Business Meeting
The APS Business Meeting is open to all members. The meeting will take place Saturday from 8:00 to 8:55 am. Come hear brief updates from the APS leadership regarding the previous year’s activities, and plans for the upcoming year. This is a great opportunity to become involved in the activities of the Society, and learn more about what APS has to offer you.

Special Interest Get-Togethers
APS is hosting five special interest get-togethers in the Marriott on Friday evening, from 6:30 to 7:30 pm, on the topics of Interventions, PNI, Clinician’s Interests, Ethnic Disparities and Neuroscience. There is no cost to participate, but if you have not already registered for this event, please check with the APS Registration Desk for availability.
Exhibiting and Advertising

APS welcomes the following exhibitors and advertisers to our meeting.

**IBL International** is a recognized leader in the development and manufacturing of immunodiagnostics. We offer a wide range of assays for measuring steroid hormones and melatonin in saliva and serum.

**Karger Publishers** will provide information on the book series *Advances in Psychosomatic Medicine* and the journals *Psychotherapy and Psychosomatics* and *Psychopathology*.

**Mindware Technologies** specializes in providing state-of-the-art ambulatory and desktop data acquisition solutions, physiology signal processing software, stimulus/response systems, olfactometers, and psychophysiology laboratory design and installation.

**National Cancer Institute**'s Basic and Biobehavioral Research Branch advances research in biobehavioral mechanisms and psychological processes to reduce cancer risk and improve outcomes.

**Psychosomatic Medicine**, the official journal of the American Psychosomatic Society, will be displayed.

**Springer Science+Business Media** is a global STM publisher with books and journals in Clinical Medicine, Behavioral Science, and Public Health. An important recent publication is *Handbook of Behavioral Medicine* edited by Andrew Steptoe.

How to Cite your Abstract

The April 2011 (volume 73, number 3) on-line issue of *Psychosomatic Medicine* contains the 2011 meeting abstracts. The online journal is *Psychosomatic Medicine*’s journal of record for indexing purposes. To cite a meeting abstract in one’s vita, use Volume 73, Number 3 and the page number in which your abstract appears. Note each page number appears with the letter A in front of the page number.

Information for Presenters

If you will be presenting your research at a paper session or symposium, and will be using Powerpoint, please be prepared to load your slides onto the laptop in your session room on the day of your presentation, during a break prior to the beginning of your session. Please name your file with your last name and the date of your presentation. Please see the program details on the following pages to determine your session room. If you will be presenting a poster, please review the Poster Session listings -- before each abstract number and title listed in the program you will see a number which represents the number assigned to your poster. Please mount your poster at the correct poster station. If you have any questions, please do not hesitate to ask at the APS Registration Desk for guidance.

Information on Roundtables

This year, APS is offering both Breakfast and Luncheon Roundtable discussion sessions, and if you signed up for a roundtable, there will be a ticket in your registration packet for that event. Breakfast roundtable participants should proceed to their room for breakfast. Lunch roundtable participants should exchange their ticket for a box lunch in Conference Room 8. Please note that tickets must be purchased for all roundtables. Please visit the APS Registration Desk to determine availability.

Mentoring Program

APS will host a Mentor/Mentee program again this year, which will provide opportunities for young investigators/those new to the field to meet and network with more experienced APS colleagues in a relaxed and informal setting. The Mentor/Mentee Reception will be held on Thursday evening at 6:30 pm in Salon I. Light snacks and beverages will be provided. You must have pre-registered for this program in order to participate.

Student/Trainee Dinner

Students/Trainees attending the APS meeting are invited to gather following the Mentor/Mentee Reception for a fun evening at Casa Rio, 430 E. Commerce St., on the Riverwalk, on Thursday, March 10. Individuals will be responsible for their own expenses - please stop by the APS Registration Desk if you are interested in attending.
Awards and Special Recognition

APS Scholar Awards

For the past twelve years APS has awarded APS Scholar Awards to trainees who are conducting research. This year APS will award 12 scholar awards. Applicants for these awards must be students or trainees enrolled in medical, graduate or undergraduate school, or those in residencies, internships, or post-doctoral fellowships. Scholars are selected on a competitive basis from those students and trainees who are first authors on an abstract accepted for presentation at the APS Annual Meeting. Each award provides monetary assistance for conference fees, travel and hotel accommodations. We offer our heartfelt congratulations to this year’s recipients:

Maxine Boudreau, BA, Abstract # 1173, The Association Between BMI, Severity of Depressive Symptoms and the Perception of Dyspnea In Adult Asthmatics, Wednesday, March 9, 7:00 to 8:30 pm

Romano Endrighi, MSc, Abstract# 1086, Mood Disturbance Following Exercise Withdrawal Is Associated With Greater Inflammatory Responses To Stress, Thursday, March 10, 12:45 to 2:00 pm

Lauren Garfield, PhD, MPH, Abstract# 1590, The Independent Association of Anxiety Disorders with Incident Heart Failure In a Retrospective Cohort of VA Patients, Wednesday, March 9, 7:00 to 8:30 pm

Gerald Giesbrecht, PhD, Abstract# 1640, Momentary Association of Mood and Cortisol in Pregnancy: A Fetal Programming Proof of Concept, Thursday, March 10, 2:15 to 3:30 pm

Mathew Gregoski, PhD, Abstract# 1198, Modulating Influences of ET-1 Lys198Asn Genotype and Chronic Stress Upon Stress Reduction Programs in Reducing Ambulatory Blood Pressure (BP) Among African American (AA) Adolescents, Wednesday, March 9, 7:00 to 8:30 pm

Jennifer Knight, MD, Abstract# 1003, Psychosocial Factors Predict Neutrophil Recovery and Cytokine Levels Following Hematopoietic Stem Cell Transplantation, Friday, March 11, 1:00 to 2:15 pm

Elizabeth Lush, MS, Abstract# 1236, Tumor-promoting biological factors are associated with circadian and endocrine disruption, but not social support, in pre-surgical breast cancer patients, Friday, March 11, 1:00 to 2:15 pm

Tuong-Vi Nguyen, MD, Abstract# 1437, Comorbidity of Anxiety and Neuropsychiatric Disorders, Thursday, March 10, 12:45 to 2:00 pm

Eli Puterman, PhD, Abstract# 1400, Social support buffers the effects of anger on the systemic proinflammatory response induced by acute stress, Thursday, March 10, 12:45 to 2:00 pm

Annelieke Roest, MSc, Abstract# 1112, Improvement in somatic and cognitive depressive symptoms and its association with adverse outcome in the Enhancing Recovery in Coronary Heart Disease (ENRICHD) study, Thursday, March 10, 12:45 to 2:00 pm

John Ryan, PhD, Abstract# 1146, Functional Connectivity Between Insula and Ventral Striatum Jointly Covaries with Insulin Resistance and Depressive Symptoms, Wednesday, March 9, 7:00 to 8:30 pm

Andrew J. Wawrzyniak, PhD, Abstract# 1695, Perceived Social Support and Markers of Heart Failure Severity, Friday, March 11, 1:00 to 2:15 pm
Travel Award for MacLean Scholars

The MacLean Scholar awards were created to enable neuroscience trainees to attend the Annual Meeting and interact with the recipient of the Paul D. MacLean Award for Outstanding Neuroscience Research in Psychosomatic Medicine. MacLean Scholar winners will receive travel reimbursement to attend the meeting. Selection is based primarily on outstanding research or research potential and research that addresses questions that will advance the legacy of Paul D. MacLean. We are proud to announce this year’s winners:

Layla Banihashemi, PhD, Abstract # 1297, Childhood Physical Abuse Correlates with Adulthood Stressor-evoked Activity in Limbic Forebrain and Hypothalamic Regions, Friday, March 11, 1:00 to 2:15 pm

Masahiro Matsunaga, PhD, Abstract# 1403, Perceived happiness level influences evocation of positive emotions, Friday, March 11, 5:15 to 6:30 pm

Keely Muscatell, MD, Abstract# 1363, Social Status Modulates Neural Activity in the Mentalizing Network, Wednesday, March 9, 7:00 to 8:30 pm

Christian Schultze-Florey, MD, PhD, Abstract# 1820, Nucleus accumbens activation in response to an attachment figure: Replication and extension of findings in Complicated Grief, Friday, March 11, 5:15 to 6:30 pm

Atsushi Sekiguchi, MD, PhD, Abstract# 1028, Neural characteristics of cognitive control of negative emotion in subjects with irritable bowel syndrome, Wednesday, March 9, 7:00 to 8:30 pm

APS Minority Initiative Travel Awards

These awards were developed to encourage the participation of underrepresented minority researchers (defined by the NIH to be African-Americans, Hispanics, Native-Americans and Alaska Natives, and Pacific Islanders). Each award provides monetary assistance for travel, hotel accommodations, and other fees associated with attending the APS Annual Meeting. We are pleased to announce the winners of this year’s travel awards:

Robin Haddad, MPH, The University of Texas School of Public Health, Houston, TX, USA

Dorothy Octavia Jackson, MA, University of Alabama, Birmingham, AL, USA

Shellie-Anne Levy-Massey, MS, Howard University, Washington, DC, USA

Ikechukwu Onyewuenyi, BSc, University of Pittsburgh, Pittsburgh, PA, USA

Rodlescia Sneed, MPH, Carnegie-Mellon University, Pittsburgh, PA, USA

The Cousins Center for Psychoneuroimmunology at the UCLA Neuropsychiatric Institute graciously sponsors the American Psychosomatic Society travel assistant awards to applicants from developing countries, enabling them to attend our meeting. This year we are pleased to announce that we have awarded travel assistance to Nazur Mazurak, MD of the Ukraine and Mohammad Z. Pezeshki, MD of Iran.
Donald Oken Fellowship

This fellowship was created for the purpose of bringing a C-L psychiatrist or internist to the APS Annual Meeting each year. The person selected is in a leadership position in his or her field and able to influence others to become interested in APS by virtue of their stature and prestige. The annual award consists of an honorarium to the recipient in addition to travel expenses to attend the Annual Meeting. The recipient should have had some involvement in research, should be an effective teacher and in a position to influence others, especially medical students, residents, and fellows.

We are pleased to announce that the 2011 award will be given to James L. Levenson, MD, from VCU Medical Center in Richmond, VA.
Program-at-a-Glance

Wednesday, March 9, 2011

8:00 am - 7:30 pm  Registration  5:00 - 5:15 pm  Welcome & Announcements
Salon E Foyer  Salon E

9:00 am - 4:30 pm  APS Council Meeting  5:15 - 5:30 pm  APS & Degnon Associates: 25
Conference Room 11  Years of Collaboration!

12:30 pm - 4:30 pm  Half Day Workshops  Presidential Address
Lab to Market: The Roadmap for Successful Commercial-
ization of Behavioral Interventions  Chair: Douglas Carroll, PhD
Faculty: Steven Locke, MD and David Gruber, MD, MBA  Salon E
Conference Room 7

Using the Right Tool for the Job: Principles and Applications of Laboratory Bench Techniques for Psychosomatic Medicine Research
Faculty: Nicolas Rohleder, PhD; Anna Marsland, PhD; and Suzi Hong, PhD
Conference Room 12

Ideas to Interventions: The Process of Developing Health-
Related Behavioral Interventions  Award Announcements
Faculty: Susan M. Czajkowski, PhD, Lynda Powell, PhD;  Chair: Douglas Carroll, PhD

Paper Session: Placebos
Chair: Suzanne Segerstrom, PhD
Salon D

11:30 am - 12:45 pm  Roundtables/Meetings
Roundtable: Behavioral Sleep Interventions 101
Facilitators: Wendy M. Troxel, PhD and Daniel Taylor, PhD
Conference Room 7

Roundtable: Lab to Market 2011
Facilitators: Steven Locke, MD, and David Gruber, MD, MBA
Conference Room 9

Professional Education Committee Meeting
Conference Room 10

12:45 - 2:00 pm  Concurrent Sessions
Paper Session: Acute Stress and PNI
Chair: Tara Gruenewald, PhD
Conference Room 1-4

Paper Session: Somatic versus Cognitive Depressive Symptoms and Cardiac Health Risks
Chair: James L. Levenson, MD
Conference Room 17-18

Paper Session: Mindfulness, Meditation, and Health
Chair: Joan Broderick, PhD
Salon C

Symposium 1426: Race-Related Health Disparities: Paradoxical Findings in Latino Health
Chair: Linda Gallo, PhD
Salon D

2:00 - 2:15 pm  Break

Friday, March 11, 2011

6:45 am - 5:30 pm  Registration
Salon E Foyer

7:00 - 8:00 am  Roundtables/Meetings
Early Career Roundtable: Early Career Transitions
Facilitators: David Krantz, PhD; Jeanne McCaffrey, PhD; and Thomas Ritz, PhD
Conference Room 7

Textbook Sub Committee Meeting
Conference Room 9

8:00 - 8:55 am  Plenary Session
Neuro-Behavioral Pathways Linking Mindfulness and Physical Health
Presenter: David Creswell, PhD
Salon E

9:00 - 9:55 am  Plenary Session
Stress Management as a Probe for Illuminating Stress-Related Biobehavioral Processes
Presenter: Mike Antoni, PhD
Salon E

10:00 - 10:15 am  Break

10:15 - 11:30 am  Concurrent Sessions
Invited Symposium: Metabolic Syndrome and Health Disparities
Chair: Julian Thayer, PhD; Co-Chair: Gaston Kapuku, MD, PhD
Conference Room 1-4

Paper Session: Social Cardiophysiology
Chair: Clayton Hilmert, PhD
Conference Room 17-18

Symposium 1364: Biobehavioral Processes in Asthma: Understanding Mechanisms, Implementing Interventions
Chair: Simon Bacon, PhD
Salon C
Invited Symposium: Current Directions in Stress Research: Andy Baum’s Legacy
Chair: David S. Krantz, PhD
Discussant: Neil Schneiderman, PhD
Salon D
11:30 am - 12:45 pm Roundtables/Meetings
Roundtable: Mental Health Problems Related to Pregnancy and Postpartum Period: Which Interventions can We Offer?
Facilitator: Claire Stramrood, MD
Conference Room 10

Opportunities for NIH Funding of Psychosomatic Medicine Research
Facilitators: Susan Czajkowski, PhD; Catherine Stoney, PhD; Deborah Olster, PhD; Paige McDonald, PhD; Lis Nielsen, PhD
Conference Room 7

Psychosomatic Medicine Editorial Board Lunch
by invitation only
Conference Room 13-14

1:00 - 2:15 pm Concurrent Sessions
Symposium 1203: Biological Embedding of Childhood Experiences and Physical Health During the Life Course
Chair: Karen Matthews, PhD
Conference Room 1-4

Paper Session: Social Processes and Cardiovascular Health
Chair: Rebecca Thurston, PhD
Conference Room 17-18

Paper Session: Biopsychosocial Influences on Cancer
Chair: Deidre Pereira, PhD
Salon C

Paper Session: Biobehavioral Interventions
Chair: Joan Broderick, PhD
Salon D

Saturday, March 12, 2011

6:45 am – 5:00 pm Registration
Salon E Foyer

7:00 - 8:00 am Committee Meetings
2011/2012 Program Committee Meeting
Conference Room 7

Minority Initiative Meeting
Conference Room 9

8:00 - 8:55 am APS Business Meeting
Salon E

9:00 - 9:55 am Concurrent Sessions
Invited Talk: PROMIS®: Improved Patient Reported Outcomes for Clinical Research
Presenter: Arthur A. Stone, PhD
Conference Room 1-4

2:15 - 2:30 pm Break

2:30 - 3:45 pm Concurrent Sessions
Invited Symposium: Advances In Integrative Medicine: Relevance To Psychosomatic Medicine
Presenters: Lorenzo Cohen, PhD; Michael R. Irwin, MD; and Susan K. Lutgendorf, PhD
Conference Room 1-4

Symposium 1208: The Impact of Emotional Distress on Physical Functioning, Arrhythmia Onset, and Clinical Outcomes in Patients with Atrial Fibrillation
Chair: Nina Kupper, PhD
Conference Room 17-18

Paper Session: Effects of depression treatments
Chair: Clayton Hilmert, PhD
Salon C

Paper Session: Biopsychosocial Links between Appetite, Eating, and Obesity
Chair: Teb Robles, PhD
Salon D

3:45 - 4:00 pm Break

4:00 - 5:15 pm Plenary Session
Psychological Mechanisms in Interventions for Individuals Living with Chronic Disease: Opportunity for Integration of Theory, Research and Practice
Presenter: Annette Stanton, PhD
Salon E

5:15 - 6:30 pm Poster Session 2
Salon A/B/F

6:30 - 7:30 pm Special Interest Gatherings
Salon I

9:00 - 9:55 am Concurrent Sessions
Invited Talk: PROMIS®: Improved Patient Reported Outcomes for Clinical Research
Presenter: Arthur A. Stone, PhD
Conference Room 1-4

**Lab to Market: The Roadmap for Successful Commercialization of Behavioral Interventions**

*Chair: Steven Locke, MD*

*Faculty: Steven Locke, MD and David Gruber, MD, MBA*

The aim of this workshop is to educate and inform clinicians, clinical researchers, graduate students, and healthcare entrepreneurs by providing a roadmap to dissemination and implementation of evidence-based behavioral interventions in the community. Successful dissemination depends upon a realistic plan for sustainability once the translational research is completed. Publication of positive results alone is unlikely to support or drive dissemination. This workshop will focus on commercialization as a favored strategy for successful, large-scale dissemination of clinical innovations.

This introductory workshop will begin with an overview of the unmet need, opportunities for evidence-based behavioral interventions and the changing healthcare ecosystem, followed by a review of business model generation—essential knowledge for entrepreneurs. The first step on the roadmap is to analyze the market and how your solution uniquely addresses that need. Then, you need to develop a business model that addresses the question, “Who needs and will pay for this solution?” That requires a stakeholder analysis and the generation of a revenue model that offers sustainability and growth for the commercialization team.

To teach interdisciplinary collaboration essential for successful commercialization of healthcare innovations, a simulation exercise will be used in which the participants will break up into small groups, forming teams that will address a healthcare problem through an innovative design solution requiring collaboration among the team members. A debriefing following this exercise will focus on the teamwork and provide additional experiential learning about essential behaviors of successful teams.

**Using the Right Tool for the Job: Principles and Applications of Laboratory Bench Techniques for Psychosomatic Medicine Research**

*Chair: Suzi Hong, PhD*

*Faculty: Nicolas Rohleder, PhD; Anna Marsland, PhD; and Suzi Hong, PhD*

Overview: A solid understanding of laboratory assay methods enables researchers to explore biological mechanisms and outcomes in psychosomatic research, and facilitates understanding of complex biopsychosocial interactions in health and disease. The aim of this workshop is to provide tutorials and interactive discussions on the principles, methods, and applications of widely used laboratory bench techniques. Investigators who are either planning on incorporating or are currently utilizing bench laboratory techniques in their research are welcome. Emphasis will be given to applications of these techniques, particularly addressing the interactions between psychosocial factors, biological mechanisms, and outcomes. This workshop is designed to accommodate all levels of research experience (or inexperience) in laboratory assay techniques. Three 50-minute tutorial/presentations will be followed by an hour of small-group activity in which participants will propose and discuss a research study utilizing the assay techniques from the workshop.

**Laboratory Assay Techniques to Investigate the Stress Hormone System and its Effects on Target Tissues in Blood and Saliva**

Accumulating evidence suggests that relevant target tissues of hypothalamus-pituitary adrenal (HPA) axis and autonomic nervous system (ANS) do not uniformly respond, but rather show variability in sensitivity to hormones and neurotransmitters (e.g., glucocorticoids, catecholamines). This section will provide an overview of techniques to measure 1) HPA axis and ANS activity and 2) the responsivity of their target tissues. In vitro functional assays for assessment of HPA and ANS regulation of inflammation, and the quantification of inflammatory transcription factors using real-time RT-PCR will be discussed. These techniques have been used to successfully investigate alterations in target tissue sensitivity to neurohormonal activation in acute and chronic stress and affective disorders.
Laboratory Assay Techniques to Assess Inflammatory Markers: ELISA and Multiplex Techniques

Various inflammatory molecules in blood or cell culture are assessed to investigate inflammatory and immune cell activation states with significant implications in health and disease. In this session, techniques to assess soluble inflammatory markers such as Enzyme-Linked Immunosorbent Assay will be discussed. Furthermore, multiplex techniques for simultaneous assessment of multiple inflammatory markers will be discussed. The audience will learn the principles, strengths vs. limitations of the methods, and applications of these techniques.

Cellular Assay Techniques to Investigate Characteristics and Functions of the Sympathetic, Immune, and Hemostatic Systems

Interactions between psychosocial and biological processes are observed in immune and hemostatic changes in healthy and clinical populations. Various laboratory techniques are used to investigate these changes. In this session, methods and applications of cellular assays will be discussed with an emphasis on determining types, activation levels, and functions of immune cells and platelets using flow cytometry techniques. Methods to investigate sympathetic nervous-immune system interactions will be also discussed.

Ideas to Interventions: The Process of Developing Health-Related Behavioral Interventions

Faculty: Susan M. Czajkowski, PhD, Lynda Powell, PhD; Deborah Olster, PhD; Kim Reynolds, PhD; Linda Nebeling, PhD; and Bonnie Spring, PhD

Developing more powerful behavioral interventions for behavioral risk factors such as obesity, smoking, and adherence to medication depends on our ability to translate knowledge gained from basic behavioral research about the fundamental bases of human behavior into well-characterized, appropriately tested and optimized behavioral interventions. An approach that allows the development and optimization of behavioral interventions prior to their testing in large-scale randomized clinical and community trials is critical for building better, more powerful interventions for promoting behavior change and improving psychosocial risk factors to improve health.

In this workshop, Investigators and NIH program staff engaged in behavioral intervention development research will present findings and recommendations from a recent NIH-sponsored Workshop, entitled “Translating Ideas into Interventions,” aimed at guiding researchers interested in developing behavioral interventions. The goals of the workshop are to:

1. Describe an overarching model or framework that can guide the development of behavioral interventions prior to testing in larger Phase III randomized clinical trials;
2. Identify the study designs, methods and analytic techniques appropriate for use in the development and early testing of behavioral interventions; and
3. Discuss the structures within academic, medical and funding institutions that can create barriers to interdisciplinary collaboration and innovation, and recommend how researchers can overcome these challenges and take advantage of opportunities for translating novel behavioral science discoveries into innovative behavioral interventions.

5:00 - 5:15 pm Welcome & Announcements

Chairs: Paul J. Mills, PhD and Joshua M. Smyth, PhD

5:15 - 5:30 pm APS & Degnon Associates: 25 Years of Collaboration!

Chair: Paul J. Mills, PhD

The APS would like to recognize Degnon Associates for their 25 years of expert management of our Society. We extend our deepest gratitude and appreciation to Laura and George Degnon for their able leadership and ongoing friendship. We are also grateful to their outstanding team including Sarah Shiffert and Christine Lusk. APS is fortunate to have had exceptional professional management support from Degnon Associates and, as a result, we continue to prosper in all aspects of our activities. We look forward to continuing our strong collaboration into the future.

5:30 - 6:20 pm PRESIDENTIAL ADDRESS

The American Psychosomatic Society: Some History, Its Mission, Future Directions

Chair: Paul J. Mills, PhD, APS President

6:20 – 6:55 pm AWARD ANNOUNCEMENTS

Chair: Douglas Carroll, PhD

The recipients of the APS Scholar, MD Fellowship, MacLean Travel, Minority Initiative and Cousins Global Travel scholarships, as well as the recipients of the Donald Oken Fellowship, Patricia R. Barchas, Paul D. MacLean, Alvin P. Shapiro and Herbert E. Weiner Awards will be recognized.
1) Abstract 1796
HIGHER ACCULTURATION, STRESS, AND ELEVATED INFLAMMATORY MARKERS CONTRIBUTE TO POOR OUTCOMES IN PREGNANT LATINAS
Mary E. Coussons-Read, PhD, Psychology and Health and Behavioral Science, The University of Colorado Denver, Denver, Colorado, USA., Marci Lobel, PhD, Social and Health Psychology, Stony Brook University, Stony Brook, New York, Chandra Brandt, Stephanie Cole, M.A., Marianne Kreither, Psychology, The University of Colorado Denver, Denver, Colorado

2) Abstract 1363
SOCIAL STATUS MODULATES NEURAL ACTIVITY IN THE MENTALIZING NETWORK
Keely A. Muscatell, M.A., Psychology, UCLA, Los Angeles, CA, Emily Falk, PhD, Communication Studies, Institute for Social Research, University of Michigan, Ann Arbor, MI, Sylvia A. Morelli, M.A., Psychology, UCLA, Los Angeles, CA, Jennifer H. Pfeifer, PhD, Psychology, University of Oregon, Eugene, OR, Baldwin M. Way, PhD, Psychology, The Ohio State University, Columbus, OH, Matthew D. Lieberman, PhD, Psychology, Mirella Dapretto, PhD, Psychiatry and Biobehavioral Sciences, Naomi I. Eisenberger, PhD, Psychology, UCLA, Los Angeles, CA

3) Abstract 1828
FASTER VAGAL RECOVERY AFTER COGNITIVE CHALLENGE ATTENUATES AGE-RELATED DEFICITS IN EXECUTIVE FUNCTION
Olga V. Crowley, PhD, Paula S. McKinley, PhD, Division of Behavioral Medicine, Psychiatry, Columbia University Medical Center, New York, NY, Matthew M. Burg, PhD, Center for Behavioral Cardiovascular Health, Columbia University School of Medicine, New York, NY, David Kimhy, PhD, Psychiatry, Columbia University Medical Center, New York, NY, Joseph E. Schwartz, PhD, Center for Behavioral Cardiovascular Health, Columbia University School of Medicine, New York, NY, Yihong Zhao, PhD, Division of Behavioral Medicine, Psychiatry, Columbia University Medical Center, New York, NY, Carol D. Ryff, PhD, Psychology, University of Wisconsin, Madison, Madison, WI, Patricia A. Tun, PhD, Margie E. Lachman, PhD, Psychology, Brandeis University, Waltham, Massachusetts, Maxine Weinstein, PhD, Center for Population and Health, Georgetown University, Washington, DC, Teresa E. Seeman, PhD, Geriatrics, UCLA David Geffen School of Medicine, Los Angeles, CA, Richard P. Sloan, PhD, Division of Behavioral Medicine, Psychiatry, Columbia University Medical Center, New York, NY

4) Abstract 1821
ASSOCIATIONS AMONG DAILY STRESSORS, NEGATIVE AFFECT, AND SALIVARY CORTISOL: FINDINGS FROM THE NATIONAL STUDY OF DAILY EXPERIENCES
Robert S. Stawski, PhD, Survey Research Center, University of Michigan, Ann Arbor, MI, David M. Almella, PhD, Human Development and Family Studies, Pennsylvania State University, University Park, PA, Kelly E. Cichy, PhD, Human Development and Family Studies, Kent State University, Kent, OH

5) Abstract 1247
CARDIAC VAGAL CONTROL AS A PROSPECTIVE PREDICTOR OF ANXIETY IN WOMEN DIAGNOSED WITH BREAST CANCER
Anya V. Kogan, B.A., John J.B. Allen, PhD, Róisín O’Donnell, B.A., Amanda E. Brody, M.A., Psychology, Karen L. Weisz, MD, Psychiatry and Family Medicine, University of Arizona, Tucson, AZ

6) Abstract 1806
BIOBEHAVIORAL FACTORS AND TELOMERE LENGTH IN CERVICAL CANCER SURVIVORS
Kelly A. Biegler, PhD, Medicine, Lari Wenzel, PhD., Medicine; Population of Health & Disease Prevention, Kathy Osann, PhD., Medicine, Susie Hsieh, PhD., Health Policy Research Institute, Edward Nelson, MD, Medicine; Molecular Biology & Biochemistry, University of California, Irvine, Irvine, CA

7) Abstract 1271
EFFECTS OF A TRAINING SESSION ON THERAPEUTIC ALLIANCE TAILORED FOR GENERAL PRACTITIONERS ON GLYCAEMIC CONTROL IN TYPE 2 DIABETIC PATIENTS
Silla M. Consoli, PhD, Cedric Lemogne, PhD, CL-Psychiatry, European Georges Pompidou Hospital, Paris, Ile de France, Philippe Passa, PhD, Diabetology, Saint Louis Hospital, Paris, Ile de France, Marc Ferriere, Cardiology, Hopital Arnaud de Villeneuve, Montpellier, Herault, Martine Tramoni, MD, Diabetology, Laboratoires Servier, Neuilly sur Seine, Ile de France, France

8) Abstract 1748
POSITIVE AFFECT IS RELATED TO OBJECTIVE AND SELF-REPORTED EXERCISE BEHAVIOR: THE IMPORTANCE OF AMBULATORY AND PERSONALITY MEASURES
Lauren M. Smith, MA, John Rulz, PhD, Courtney C. Prather, BA, Erin E. Kauffman, BA, Psychology, University of North Texas, Denton, TX, Heidi A. Hamann, PhD, Psychiatry, UT-Southwestern, Dallas, TX
9) Abstract 1028
NEURAL CHARACTERISTICS OF COGNITIVE CONTROL OF NEGATIVE EMOTION IN SUBJECTS WITH IRRITABLE BOWEL SYNDROME
Atsushi Sekiguchi, Motoaki Sugiura, Department of Functional Brain Imaging, IDAC, Tohoku University, Sendai, Japan, Joe Morishita, Department of Behavioral Medicine, Tohoku University Graduate School of Medicine, Sendai, Japan, Yuka Kotozaki, Smart Ageing International Research Center, IDAC, Tohoku University, Sendai, Japan, Emiko Aizawa, Shin Fukudo, Department of Behavioral Medicine, Tohoku University Graduate School of Medicine, Sendai, Japan, Ryuta Kawashima, Smart Ageing International Research Center, IDAC, Tohoku University, Sendai, Japan

10) Abstract 1198
MODULATING INFLUENCES OF ET-1 LYS198ASN GENOTYPE AND CHRONIC STRESS UPON STRESS REDUCTION PROGRAMS IN REDUCING AMBULATORY BLOOD PRESSURE (BP) AMONG AFRICAN AMERICAN (AA) ADOLESCENTS
Mathew J. Gregoski, PhD, Nursing, Medical University of South Carolina, Charleston, SC, Vernon A. Barnes, PhD, Martha S. Tingen, PhD, Yanbin Dong, MD/PhD, Haldong Zhu, MD/PhD, Pediatrics, Medical College of Georgia, Augusta, GA, Frank A. Treiber, PhD, Nursing & Psychiatry, Medical University of South Carolina, Charleston, SC

11) Abstract 1159
HEART RATE AND COMPLETED SUICIDE: EVIDENCE FROM THE IPC COHORT STUDY.
Cédric Lemogne, MD, PhD, Faculté de médecine, Université Paris Descartes, Paris, France, Frédérique THOMAS, PhD, IPC Center, Paris, France, Sila M. CONSOLI, MD, PhD, C-L Psychiatry, European Georges Pompidou Hospital, Paris, France, Bertrand JEGO, MBA, Bruno PANNIER, MD, IPC Center, Paris, France, Nicolas DANCHIN, MD, PhD, Cardiology, European Georges Pompidou Hospital, Paris, France

12) Abstract 1637
PAIN-RELATED INSULA ACTIVITY PREDICTS CLINICAL COURSE OF MAJOR DEPRESSION: A FOLLOW-UP FMRI STUDY
Scott C. Matthews, MD, Irina A. Strigo, PhD, Alan N. Simmons, PhD, Psychiatry, UCSD, San Diego, CA, Ryan M. O’Connell, BS, Psychiatry, Veterans Medical Research Foundation, San Diego, CA

13) Abstract 1277
HISTORY OF DEPRESSIVE EPISODES AS A RISK FACTOR FOR ILLNESS SEVERITY IN EARLY INFLAMMATORY ARTHRITIS
Karl J. Looper, MD, Psychiatry, McGill University, Montreal, Quebec, Canada, Sally S. Mustafa, PhD, Pharmacology, The University of Lahore, Lahore, Pakistan, Phyllis Zeikowitz, EdD, Psychiatry, Margaret Purden, PhD, Nursing, Murray Baron, MD, Rheumatology, McGill University, Montreal, Quebec, Canada, Sally S. Mustafa, PhD, Pharmacology, The University of Lahore, Islamabad, Pakistan

14) Abstract 1735
SUBLIMINALLY PRIMING RESISTANCE TO PAIN
Abraham M. Rutchick, PhD, Aron Jacobson, B.A., Psychology, California State University, Northridge, Northridge, CA

15) Abstract 1805
MINDFULNESS-BASED STRESS REDUCTION FOR THE TREATMENT OF IRRITABLE BOWEL SYNDROME SYMPTOMS: A RANDOMIZED WAIT-LIST CONTROLLED TRIAL
Kristin A. Zernicke, M.Sc., Tavis S. Campbell, PhD, Department of Psychology, Philip K. Blustein, MD, FRCP, Department of Medicine, Tak S. Fung, PhD, Department of Mathematics and Statistics, Jillian A. Evans, B. Sc., Department of Psychology, Linda E. Carlson, PhD, Department of Oncology, University of Calgary, Calgary, AB, Canada

16) Abstract 1384
FACTORS IN THE SOCIAL AND PHYSICAL ENVIRONMENT INTERACT TO INFLUENCE YOUTH ASTHMA
Hannah M. Schreier, M.A., Nandini Maharaj, BA, Will Lee, BA, Psychology, University of British Columbia, Vancouver, British Columbia, Canada, Edith Chen, PhD, Psychology, University of British Columbia, Vancouver, BC, Canada

17) Abstract 1173
THE ASSOCIATION BETWEEN BMI, SEVERITY OF DEPRESSIVE SYMPTOMS AND THE PERCEPTION OF DYSPNEA IN ADULT ASTHMATICS
Maxine Boudreau, BA, Ariane Jacob, BA, Karine Ouellet, BA, Kim L. Lavoie, PhD, Simon L. Bacon, PhD, MBMC/Psychology/Exercise Science, Hopital du Sacre-Coeur de Montreal/UQAM/Concordia, Montreal, Quebec, Canada
18) Abstract 1405
EMPIRICALLY DERIVED COMPONENTS OF THE COOK-MEDLEY SCALE AND INFLAMMATION IN AFRICAN AMERICANS
Mana Ali, MS, Denee T. Mwendwa, PhD, Regina C. Sims, PhD, Serge Madhere, PhD, Shellie-Anne Levy-Massey, MS, Georica Gholson, MS, Alfonso L. Campbell, PhD, Psychology, Howard University, Washington, DC; Clive O. Callender, MD, College of Medicine, Howard University Hospital, Washington, DC

19) Abstract 1168
DEPRESSIVE AFFECT, POSITIVE AFFECT, AND MORTALITY IN PATIENTS WITH AN IMPLANTABLE CARDIOVERTER DEFIBRILLATOR
Krista C. Van den Broek, PhD, CoRPS - Medical Psychology and Neuropsychology, Tilburg University, Tilburg, The Netherlands, Fetene B. Tekle, PhD, Department of Methodology and Statistics, Mirela Habibovic, MSc, Department of Medical Psychology and Neuropsychology, Tilburg University, Tilburg, The Netherlands, Marco Alings, PhD, Department of Cardiology, Amphia Hospital, Breda, The Netherlands, Pepijn H. Van der Voort, MD, Department of Cardiology, Catharina Hospital, Eindhoven, The Netherlands, Johan Denollet, PhD, Department of Medical Psychology and Neuropsychology, Tilburg University, Tilburg, The Netherlands

20) Abstract 1372
RELATIONSHIP OF SELF- AND INFORMANT-REPORTED PERSONALITY RATINGS TO PRESENCE OF THE METABOLIC SYNDROME
Karissa G. Miller, B.A., Psychology, University of Pittsburgh, Pittsburgh, Pennsylvania, Janine D. Flory, PhD, Psychology, Queens College, CUNY, Flushing, New York, Stephen B. Manuck, PhD, Psychology, University of Pittsburgh, Pittsburgh, Pennsylvania

21) Abstract 1766
PHOBIC ANXIETY IN PATIENTS WITH AN IMPLANTED CARDIOVERTER DEFIBRILLATOR: FINDINGS FROM THE THE LIVING WITH AN IMPLANTABLE CARDIOVERTER DEFIBRILLATOR (LICAD) PROSPECTIVE STUDY
En-Young N. Cho, MD, Roland von Känel, MD, General Internal Medicine, University Hospital, Bern, Switzerland, Birgit Marten-Mittag, PhD, Joram Ronel, MD, Psychosomatic Medicine, Christof Kolb, MD, Heart Centre, Technical University, Munich, Germany, Jens Baumert, PhD, Karl-Heinz Ladwig, MD, PhD, Epidemiology, Helmholtz Zentrum, Munich, Germany

22) Abstract 1590
THE INDEPENDENT ASSOCIATION OF ANXIETY DISORDERS WITH INCIDENT HEART FAILURE IN A RETROSPECTIVE COHORT OF VA PATIENTS.
Lauren D. Garfield, MPH, Center for Health Outcomes Research, Saint Louis University School of Public Health, St. Louis, MO, Timothy Chrusciel, MPH, Research Service, St. Louis Veterans Affairs Medical Center, St. Louis, MO, Paul J. Hauptman, Medicine, Division of Cardiology, Saint Louis University School of Medicine, St. Louis, MO, Kenneth E. Freedland, Patrick J. Lustman, Robert M. Carney, Psychiatry, Washington University School of Medicine, St. Louis, MO, Richard Owen, Research & Development Service, Central Arkansas Veterans Healthcare System, Little Rock, AR, Kathleen K. Bucholz, PhD, Psychiatry, Washington University School of Medicine, St. Louis, MO, Jeffrey F. Scherrer, PhD, Research Service, St. Louis Veterans Affairs Medical Center, St. Louis, MO

23) Abstract 1694
OUTRUNNING YOUR GENES - GENETIC MODERATION OF ASSOCIATION BETWEEN EXERCISE AND THE METABOLIC SYNDROME
Jay E. Champlin, B.A., University of Pittsburgh School of Medicine, Pittsburgh, PA, Indrani Halder, PhD, Cardiology, University of Pittsburgh Medical Center, Pittsburgh, PA, Stephen B. Manuck, PhD, Psychology, Robert E. Ferrell, PhD, Human Genetics, University of Pittsburgh, Pittsburgh, PA, Matthew F. Muldoon, MD, MPH, Medicine, University of Pittsburgh School of Medicine, Pittsburgh, PA

24) Abstract 1094
PSYCHOLOGICAL DISTRESS PERCEIVED DURING MYOCARDIAL INFARCTION AS A PREDICTOR OF POOR CARDIOVASCULAR OUTCOME
Roland von Känel, MD, Roman Hari, MSc, General Internal Medicine, Jean-Paul Schmid, MD, Hugo Saner, MD, Cardiac Prevention and Rehabilitation, Stefan Begré, MD, General Internal Medicine, University Hospital, Bern, Switzerland

25) Abstract 1146
FUNCTIONAL CONNECTIVITY BETWEEN INSULA AND VENTRAL STRIATUM JOINTLY COVARIATES WITH INSULIN RESISTANCE AND DEPRESSIVE SYMPTOMS
John P. Ryan, PhD, Lei K. Sheu, PhD, Psychiatry, Peter J. Gianaros, PhD, Psychiatry and Psychology, University of Pittsburgh, Pittsburgh, PA
Thursday, March 10, 2011

6:45 am – 5:30 pm **REGISTRATION**
Salon E Foyer

A light continental breakfast will be served from 6:45 to 8:00 am.

7:00 - 8:00 am **ROUNDTABLE**

Early Career Roundtable: Securing Funding Fast: Making A Plan of Action and Identifying Sources
Conference Room 7

Chair: Vanessa Juth, BA
Facilitators: Judith Andersen, PhD; and William Lovallo, PhD

The goal of this roundtable is to provide trainees and early career attendees with concrete advice on seeking research funding early in one’s career. The first presentation will include a step by step guide to finding and applying for small grants. Concrete suggestions, examples and resources will be provided with the goal of aiding students to create a realistic and timely action plan for locating funding. The second presentation will address what NIH and VA grant committees are looking for when reviewing student applications. Recommendations on what to highlight in your proposal and how to secure a mentoring relationship that will meet the expectations of these funding sources will be provided.

8:00 - 8:55 am **PLENARY SESSION**

Information Technology in Health Care: The Next Ten Years
Salon E

Chair: Steve Locke, MD
Presenter: Victor Strecher, PhD

In this presentation Dr. Strecher will discuss recent approaches to using interactive media, including the Internet and mobile technologies, to engage and assist people in health-related behavior changes. Specific uses of these interactive technologies for the management of depression, weight, smoking, and other areas will be discussed. In addition, underlying mechanisms for behavior change will be considered. The objectives of this talk are to 1) better understand the role and potential of interactive media in psychosomatic medicine; 2) better differentiate the quality of interactive media programs in psychosomatic medicine; and 3) better understand underlying mechanisms for health-related behavior change.

9:00 - 10:15 am **CONCURRENT SESSIONS**

Paper Session: Cardiovascular Disease Risk
Conference Room 1-4

Chair: Rebecca Thurston, PhD

Abstract 1345
TRAUMATIC PSYCHOLOGICAL STRESS AND INFLAMMATORY ACTIVITY IN PATIENTS WITH CARDIOVASCULAR DISEASE: FINDINGS FROM THE HEART AND SOUL STUDY

10:15 - 10:30 am BREAK

10:30 - 11:25 am CONCURRENT SESSIONS

Invited Talk: Sleep in Psychosomatic Medicine: Theory, Data, and Translational Promise
Chair: Michele Okun, PhD
Presenter: Martica Hall, PhD
Dr. Hall will present a theoretical perspective for considering sleep in the context of psychosomatic medicine. She will use data from basic and clinical studies to summarize the current state of science and suggest promising avenues for future translational research.

Paper Session: Type D Personality and Cardiac Disease
Chair: Oliver Cameron, MD

Abstract 1433
ASSOCIATION OF TYPE D PERSONALITY WITH CARDIOVASCULAR DISEASE RISK FACTORS, UNHEALTHY LIFESTYLE AND CORONARY EVENTS IN THE GENERAL POPULATION.
Erla Svansdottir, cand. psych, Krista C. Van den Broek, PhD, CoRPS- Department of Medical Psychol-
Symposium 1845: Depressed Mood and Suicidal Ideation in African American Women: Biobehavioral Processes, Mechanisms and Intervention

Chair: Eugene Emory, PhD
Discussant: Julian Thayer, PhD

Individual Abstract Number: 1849
STRESS, ANXIETY AND MOOD IN PREGNANT WOMEN

Paper Session: Placebos

Chair: Suzanne Segerstrom, PhD

Abstract 1710
ARE SOME PLACEBOS MORE EFFECTIVE THAN OTHERS? FIRST RESULTS FROM A SYSTEMATIC REVIEW ON MIGRAINE PROPHYLAXIS
Karin Meissner, MD, Klaus Linde, MD, General Practice, Technical University, Munich, Germany, Gerta Rücker, PhD, Medical Biometry and Medical Informatics, University Medical Center, Freiburg, Germany, Margrit Fässler, MD, General Practice, Technical University, Munich, Germany

Abstract 1842
GETTING NOCEBO EFFECTS INTO CLINICAL PRACTICE
Luana Colloca, PhD, NCCAM, National Institutes of Health, Bethesda, Maryland

Abstract 1717
DIRECT EFFECTS OF A SHAM INTERVENTION ON CORONARY ARTERIES
Karin Meissner, MD, Medical Psychology, University of Munich, Munich, Germany, Julinda Mehilli, MD, Cardiovascular Diseases, Deutsches Herzzentrum, Munich, Germany, Karl-Heinz Ladwig, PhD, Epidemiology, Helmholtz Zentrum München, Neuherberg, Germany, Hannah Blättler, Psychosomatic Medicine and Psychotherapy, Nina Oversohl, Klaus Linde, MD, General Practice, Peter Henningsen, MD, Joram Ronel, MD, Psychosomatic Medicine and Psychotherapy, Technical University Munich, Munich, Germany
Behavioral Sleep Interventions 101
Chair: Wendy Troxel, PhD
Facilitators: Wendy M. Troxel, PhD and Daniel Taylor, PhD

Sleep disorders are highly prevalent, particularly in patients with comorbid mental and physical health conditions, and can predict poorer treatment outcomes. The purpose of this roundtable is to provide a basic understanding of the principles of behavioral therapies for sleep as well as basic assessment tools in sleep medicine. The roundtable will be presented in an interactive format with opportunities for audience members to ask questions about different types of sleep complaints, what types of therapies are available, and when to refer for diagnostic sleep studies. We will also review the basic principles underlying cognitive behavioral therapy for insomnia, an empirically supported treatment which has been shown to be equally effective in treating insomnia as pharmacologic treatment and more enduring.

Lab to Market 2011: New Strategies for Dissemination and Implementation of Evidence-Based Behavioral Interventions in Primary Care and Accountable Care Organizations - the Future of Health
Chair: Steven Locke, MD
Co-Facilitator: David Gruber, MD, MBA

Efforts underway to reform US healthcare are creating opportunities for innovative approaches to the integration of behavioral health into primary care and specialty medical practice. This is particularly true for the management of chronic medical conditions as well as for behavioral health risks such as the epidemic of obesity with its ominous impact on morbidity, mortality, health costs, and lost productivity. The emergence of new models of care (such as collaborative care, shared decision-making, and mental health parity), and new technologies (such as telehealth, the medical home, and Health 2.0) are some of the building blocks for change. Clinical research in psychosomatic medicine will lead to the development of successful population health management interventions only if they can be shown to be clinically effective, cost-effective, and capable of dissemination and implementation. One strategy, discussed during last year’s Lab to Market Roundtable, was the idea that commercialization is required to achieve meaningful penetration into the healthcare market. In this roundtable, we will examine other models for dissemination and implementation. Leaders in clinical innovation will discuss successful programs in which evidence-based behavioral treatments are being integrated into primary care. Participants will discuss the challenges and opportunities at the interface between psychosomatic medicine and business and the roundtable faculty will provide guidance to participants who are contemplating or beginning the development of similar efforts.

CONCURRENT SESSIONS

Invited Symposium: Reducing Risk of CHD: Targeting Stress, Depression, and Type D Personality  
Conference Room 1-4

Chair: Simon Bacon, PhD
Speakers: Kenneth E. Freedland, PhD; Johan Denollet, PhD; Peter A. Shapiro, MD

One of the overarching goals of behavioral cardiology is to determine whether treatment of psychosocial risk factors can improve medical outcomes in patients with established heart disease. This symposium focuses on three of the most promising targets of intervention: stress, depression, and Type D personality. Each speaker will focus on one of these factors, briefly reviewing its role in cardiac morbidity and mortality, the interventions that have been tested so far, and promising directions for intervention development. Following the individual presentations, the speakers will discuss the next steps on the path to large, definitive, randomized controlled trials in each area, and some ways in which these three areas of clinical research could be mutually reinforcing.

TARGETING PSYCHOLOGICAL STRESS TO REDUCE THE RISKS OF CARDIOVASCULAR MORBIDITY AND MORTALITY IN PATIENTS WITH ESTABLISHED HEART DISEASE
Kenneth E. Freedland, PhD

Several different psychological stressors increase the risk of cardiovascular morbidity and mortality. A variety of different interventions have been tested, but so far, there is only limited evidence that any form of treatment reduces the cardiovascular risks associated with any form of psychological stress. Nevertheless, the existing evidence is promising enough to indicate a growing need for large, multicenter, randomized controlled trials in this area. This presentation will highlight some of the key studies that have been conducted to date, and discuss further research that should be undertaken in order to pave the way for large, definitive RCTs.

CHRONIC PSYCHOLOGICAL DISTRESS AND INTERVENTIONS IN PATIENTS WITH HEART DISEASE: OBSERVATIONS FROM RESEARCH ON TYPE D PERSONALITY
Johan Denollet, PhD

While stress refers to an episodic risk marker and patients may go in and out of depressive episodes, the Type D construct highlights the more chronic nature of psychological distress. Type D individuals frequently experience negative emotions and tend to be socially inhibited. Type D personality has been associated with adverse cardiovascular outcomes, independent from stress and depression. Hence, in addition to treating stress or depression, it may be important to focus on more chronic or covert forms of distress. Future research needs to investigate whether cardiac patients may benefit from a more personalized approach to behavioral intervention.

INTERVENTIONS FOR DEPRESSION AND EFFECTS ON CARDIOVASCULAR OUTCOME IN PATIENTS WITH HEART DISEASE: LEARNING FROM HISTORY
Peter A. Shapiro, MD

Improving cardiovascular outcome by interventions targeting depression in heart disease patients has become a holy grail of psychosomatic medicine. While there can be no denying the vast accumulated epidemiological evidence showing an association of depression with adverse health outcomes in heart disease, it is equally hard to deny the failure of the first generation of depression intervention trials to prove a beneficial effect on these outcomes. This presentation will attempt to highlight what has been learned from trials so far, including key questions and conceptual issues that need to be addressed in planning future intervention studies.

Tough Lessons Learned from Cardiovascular Trials: Implications for Psychosomatic Medicine
Chair: Craig Ewart, PhD
Presenter: Karina Davidson, PhD
This master lecture will review some of the spectacular successes, as well as impressive failures and difficult missteps of the Cardiovascular field. A range of topics pertinent to Psychosomatic Medicine will be covered, such as finding the right dose before embarking on a trial; imagining all the ways a risk marker may not be causal; inferring benefit from a series of trials, rather than from a definitive trial; and setting up systems to ensure that all practitioners (and patients) know what works in your field, and what doesn’t. Cardiologists use mnemonics and stories to remember each of the successes and failures in their field, and I will endeavor to provide analogous tools to you for our field. (Can you spell ‘homocysteine’?) Learning by observation involves four separate processes: attention, retention, production and motivation. If Psychosomatic Medicine as a field pays attention to the lessons learned by Cardiology, encodes and retains this information, produces studies and trials informed by these costly lessons, and is motivated and has reasons to do so, we may produce better science, better education, and better public health outcomes as a result. The alternative is that we are only capable of learning from our own mistakes, and must reinvent each tough lesson to truly learn.

6:30 - 7:30 pm
MENTOR/MENTEE RECEPTION
Salon I
Mentor and mentee participants who have registered for this program are invited to network at this reception.

7:45 pm
PAST LEADERS DINNER
by invitation only

Reminder to Student/Trainees!
You are invited to gather at 7:30 pm, following the Mentor/Mentee Reception on Thursday, for a fun evening at Casa Rio, 430 E. Commerce St., on the Riverwalk. Individuals will be responsible for their own expenses - please stop by the APS Registration Desk if you are interested in attending but haven’t yet signed up.
Friday, March 11, 2011

6:45 am – 5:30 pm  REGISTRATION

A light continental breakfast will be served from 6:45 to 8:00 am.

Salon E Foyer

7:00 - 8:00 am  ROUNDTABLES/ COMMITTEE MEETING

Early Career Roundtable: Early Career Transitions  Conference Room 7

Presenters: David Krantz, PhD; Jeanne McCaffrey, PhD; and Thomas Ritz, PhD

This Roundtable session will focus on early career transitions for students about to enter the job market as well as early career professionals encountering decisions about their career trajectory. It will include “to do’s” for the final years in grad school or medical school, searching and interviewing for jobs, new job negotiations, shifting career paths, setting up collaborations, and networking tactics.

Textbook Sub Committee Meeting  Conference Room 9

8:00 - 8:55 am  PLENARY SESSION

Salon E

Neuro-Behavioral Pathways Linking Mindfulness and Physical Health

Chair: Scott Matthew, MD
Presenter: David Creswell, PhD

There is a growing interest among psychosomatic medicine researchers in integrating neuroimaging and biological assessment methods in behavioral intervention research. This talk describes a program of research examining the stress-reduction pathways in mindful awareness and mindfulness interventions, using neuroimaging and biological assessment methods. Laboratory and intervention studies will be presented showing that (1) mindful awareness can reduce stress and improve stress-related disease outcomes, (2) mindful awareness is associated with improved stress-regulation via prefrontal cortico-limbic pathways, and (3) that these neural and health effects can be explained by behavioral measures of mindfulness meditation class attendance and home practice. Concluding comments will consider the benefits and drawbacks of integrating neuroimaging and biological stress measures in behavioral intervention studies.

9:00 - 9:55 am  PLENARY SESSION

Salon E

Stress Management as a Probe for Illuminating Stress-Related Biobehavioral Processes

Chair: Sally Dickerson, PhD
Presenter: Mike Antoni, PhD

In line with the conference theme of “Biobehavioral Processes and Health: Understanding Mechanisms, Implementing Interventions” this talk presents a rationale and evidence for the use of stress management intervention as a probe to illuminate biobehavioral processes that mediate stress-health associations in persons with medical illnesses. Research generated in the APS over several years suggests that a host of stressors and stress moderating variables can affect health outcomes in persons dealing with a variety of medical conditions. Cross-sectional and longitudinal studies point to psychosocial (stressor appraisals and interpersonal transactions) and physiological (neuroimmune) adaptation processes that may mediate these associations. Using a structured, manualized, group-based cognitive behavioral stress management (CBSM) intervention designed to modulate these adaptation processes it has been possible to document intervention-associated changes in psychosocial and physiological indicators running in parallel among patients with conditions such as HIV/AIDS, different cancers, and chronic fatigue syndrome. Emerging technologies allow us to drill down with transcriptional molecular analyses to see how these interventions may work on stress physiology, and to utilize advances in telecommunications to reach out to and demonstrate biobehavioral processes in understudied populations who might derive the greatest health benefits from stress management. Intervention findings can identify parallel processes that may be directly manipulated to affect disease management and can in turn generate hypothesized pathways for future development in animal models and targeted human intervention trials. This work may stimulate researchers to set up stress management trials within the field of psychosomatic medicine that examine parallel changes in psychosocial and physiological adaptation processes and relate these in turn to clinical health outcomes.

10:00 - 10:15 am  BREAK
Invited Symposium: Metabolic Syndrome and Health Disparities
Chair: Julian Thayer, PhD; Co-Chair: Gaston Kapuku, MD, PhD
Presenters: Sherita Hill Golden, MD, MHS; Tiffany M. Powell, MD, MPH; and Lucile Adams-Campbell, PhD

NEUROENDOCRINE DYSFUNCTION: A CULPRIT IN THE LINK BETWEEN STRESS AND METABOLIC DISORDERS?
Sherita Hill Golden, MD, MHS
Epidemiological studies show that depression predicts development of type 2 diabetes. This association is not entirely explained by obesity-promoting health behaviors associated with depression. This presentation will demonstrate that clinical and subclinical hypercortisolism and metabolic syndrome share a common phenotype. Using data from the Multi-Ethnic Study of Atherosclerosis, alteration in the diurnal salivary cortisol profile in type 2 diabetes will be examined. Neuroendocrine dysfunction may partially explain the link between psychological stress and metabolic disorders in multiethnic populations.
Objectives:
• Discuss the epidemiological association between depression and type 2 diabetes.
• Discuss the role of the hypothalamic-pituitary-adrenal axis in the pathophysiology of obesity and type 2 diabetes.
• Discuss evidence supporting neuroendocrine dysregulation in type 2 diabetes.

RELATIONSHIP BETWEEN PERCEIVED NEIGHBORHOOD STRESS AND PREVALENT OBESITY: DATA FROM THE DALLAS HEART STUDY
Tiffany M. Powell, MD, MPH
Although psychological stress can result in adverse health behaviors and outcomes, less is understood about chronic stress due to neighborhood characteristics and its association to obesity, a cause of disability, diabetes, and cardiovascular disease. Differential exposure to chronic stress related to neighborhood characteristics across racial and ethnic groups may contribute to disparities in prevalent obesity. This presentation will describe the relationship between chronic stress due to neighborhood characteristics and obesity measured by body mass index (BMI) among participants in the Dallas Heart Study, a multi-ethnic, probability-based population sample of Dallas County residents.

OBESITY, PHYSICAL ACTIVITY, AND BREAST CANCER DISPARITIES
Lucile Adams-Campbell, PhD
Breast cancer disparities exist with the highest incidence rates among White women but the highest mortality rates among African-American women. It is hypothesized that obesity and physical inactivity are two risk factors that are linked to the breast cancer burden among African-Americans. The prevalence of obesity in America has reached epidemic proportions. Currently, 68% of Americans are either overweight or obese whereby African-Americans are at more than a two-fold increased rate compared to European-Americans. The recommended amount of physical activity for Americans is >150 min/wk or 10,000 steps per day; however, many Americans are not meeting these guidelines. Inadequate energy expenditure or high levels of physical inactivity lead to an increased risk of obesity. Obesity coupled with physical inactivity, are significant risk factors and contributors of increased breast cancer disparities for breast cancer.

Invited Symposium: Current Directions in Stress Research: Andy Baum’s Legacy
Chair: David S. Krantz, PhD
Presenters: Angela Liegey Dougall, PhD; Douglas Delahanty, PhD; Laura Redwine, PhD; Martica Hall, PhD; and Lorenzo Cohen, PhD
Discussant: Neil Schneiderman, PhD
Andy Baum’s research interests revolved around stress and its impact on health and illness, particularly traumatic stress, biobehavioral factors in the development and progression of neoplastic disease, and stress associated with managing disease risk or chronic illness. The present symposium brings together prior students of Dr. Baum’s who are now noted experts in stress research in order
to demonstrate the breadth of Dr. Baum’s influence on the field of psychosomatic medicine. Dr. Dougall will describe recent work that Dr. Baum had been conducting to examine the impact of stress on cell defense at a molecular level and linking these changes to processes that may be related to immnosurveillance and the induction of cell mutation. Dr. Delahanty will present both basic and applied research into biological predictors and correlates of post-traumatic distress and how this has informed current and ongoing pharmacological prevention trials. Dr. Redwine will provide a review of PNI research culminating on current work examining PNI processes in heart disease and cancer. Dr. Cohen will provide an overview of his work in the field of psycho-oncology with a focus on a biobehavioral/psychosocial model. His presentation will highlight research examining the role of stress in adjustment to cancer diagnosis and treatment and stress management interventions. Finally, Dr. Hall will take a similar approach to discussing her research program on the effects of stress on sleep and the impact of stress-related sleep disturbances on health outcomes.

11:30 am - 12:45 pm ROUNDTABLES/COMMITTEE MEETINGS (or lunch on your own)

Mental Health Problems Related to Pregnancy and Postpartum Period: Which Interventions can We Offer? Conference Room 10

Chair: Claire Stramrood, MD

An increasing body of research has become available during the past two decades on possible mental health problems in the perinatal period: One in eight childbearing women develop postpartum depression, 1-2% develops posttraumatic stress disorder (PTSD), 6-10% has clinical fear of childbirth (FoC). Risk factors include a wide range of aspects, including previous psychiatric illnesses or psychological problems, stressful life events (divorce, financial problems), complications and interventions during delivery, lack of support from partner and staff, etc. Possible consequences include reduced quality of life, attachment problems, impaired cognitive and behavioral development (in infant), increased rates of both elective and emergency cesarean sections, and avoidance of subsequent pregnancies.

While much is now known regarding prevalence, risk factors and consequences, studies regarding prevention and treatment options are scarce, particularly for PTSD and FoC. A limited number of studies have suggested psycho-education, cognitive behavioral therapy and eye-movement desensitization and reprocessing (EMDR).

This roundtable session will focus on (1) sharing knowledge on mental health problems related to pregnancy and postpartum period, in particular PTSD and FoC; (2) discussing best practices: experience from professionals working in a clinical setting with prevention and intervention strategies; (3) discussing possible (collaboration in) research on this topic.

Opportunities for NIH Funding of Psychosomatic Medicine Research Conference Room 7

Chair: Susan Czajkowski, PhD, NHLBI
Panel Members: Catherine Stoney, PhD, NHLBI; Deborah Olster, PhD, OBSSR; Paige McDonald, PhD, NCI; Lis Nielsen, PhD, NIA

This roundtable will provide an overview of NIH policies and funding opportunities in psychosomatic medicine research. NIH scientists representing several different Institutes as well as the Office of Behavioral and Social Sciences Research will discuss current initiatives and broad NIH goals in the behavioral and social sciences. One anticipated outcome will be an increased exchange between NIH scientific staff and potential applicants, with time provided for questions and for participants to schedule one-on-one meetings with NIH representatives. The information presented will be relevant to both new and established investigators. Participants will leave with the most up-to-date information on:
- New NIH initiatives and funding opportunities in basic, translational and applied behavioral and social science research
- Changes in NIH submission, review, and other NIH policies
- Future directions & priorities for psychosomatic medicine research at NIH

Invited Symposium: Advances In Integrative Medicine: Relevance To Psychosomatic Medicine
Chair: Deidre Pereira, PhD
Presenters: Lorenzo Cohen, PhD; Michael R. Irwin, MD; and Susan K. Lutgendorf, PhD
Approximately one-third of all adults in the United States use Complementary and Alternative Medicine (CAM) or Integrative Medicine approaches. In spite of this, there is a relative paucity of research examining (a) the efficacy of Integrative Medicine approaches on health outcomes and (b) the biobehavioral mechanisms by which these effects may occur. The Institute of Medicine (2005) has recommended prioritizing the initiation of this research in conditions that are “highly prevalent,” “carry a high burden of suffering,” and “offer the possibility of great benefit.” Consistent with these research priorities, this Symposium will present empirically-based research on the efficacy of Integrative Medicine approaches, particularly mind-body and touch therapies, on immunity and patient-centered outcomes in older adults and individuals with cancer.

INTEGRATIVE MEDICINE: OVERVIEW AND ONCOLOGY-BASED APPLICATIONS
Lorenzo Cohen, PhD
This talk will provide an overview of integrative medicine with brief examples of the application of different treatment modalities relevant to psychosomatic medicine. Topics covered will include: biological therapies; mind-body medicine; manipulative body-based practices; energy medicine; and whole medical systems. The role of comprehensive integrative medicine programs will be discussed. Research incorporating different forms of yoga in cancer care will be highlighted.

MIND-BODY APPROACHES TO HEALTH AND WELLNESS PROMOTING SUCCESSFUL AGING: EFFECTS OF TAI CHI ON IMMUNITY, SLEEP, AND DEPRESSION IN OLDER ADULTS
Michael R. Irwin, MD
This talk will provide an overview of mind-body approaches with a review of types of treatment and their utilization. Opportunities for evaluating their efficacy in specific populations to prevent and treat illness will be critically discussed, with consideration of priorities for understanding the neurobiological mechanisms that mediate benefit. Studies using Tai Chi will be highlighted as an example of a mind-body treatment that can be used to promote successful aging across multiple health domains. The comparability and benefit of Tai Chi to other behavioral interventions such as cognitive behavioral therapy and/or to pharmacotherapies will be considered.

EFFECTS OF HEALING TOUCH AND RELAXATION ON IMMUNITY AND MOOD IN CERVICAL CANCER PATIENTS DURING CHEMORADIATION
Susan K. Lutgendorf, PhD
This talk will discuss effects of a randomized clinical trial testing the effects of Healing Touch vs. Relaxation vs. Standard Care on the cellular immune response and depression in cervical cancer patients during their chemoradiation treatment. General issues regarding biofield therapy assumptions, methodology, and research will also be addressed.

Symposium 1208: The Impact of Emotional Distress on Physical Functioning, Arrhythmia Onset, and Clinical Outcomes in Patients with Atrial Fibrillation
Chair: Nina Kupper, PhD
Discussant: David Krantz, PhD

Individual Abstract Number: 1226

Psychological Mechanisms in Interventions for Individuals Living with Chronic Disease: Opportunity for Integration of Theory, Research and Practice  
Chronic, noncommunicable diseases, such as cancer and cardiovascular disease, account for 70% of all deaths in the United States and for 60% of mortality worldwide. Moreover, prolonged illnesses and associated medical treatments can disrupt the lives of individuals and those around them in profound ways. In response, researchers have conducted hundreds of longitudinal investigations to illuminate factors that promote and detract from psychological and physical adjustment in individuals living with a diagnosis of chronic disease, as well as a wealth of randomized, controlled trials designed to promote those outcomes. However, there is too little cross-talk among theorists, researchers who conduct observational investigations, and clinical trialists. Founded in the relevant literatures, including the speaker’s research, the primary goals of this presentation are to: (1) promote consideration of how theories and investigations of risk and protective factors for adjustment to chronic disease and randomized, controlled intervention trials can reciprocally inform each other; (2) highlight promising, evidence-based candidates for psychosocial mechanisms for the efficacy of recent randomized, controlled trials; and (3) offer directions for theory, research, and practice.

143) Abstract 1360
PERCEIVED EMOTIONAL SUPPORT AND CORTISOL REACTIVITY
Suman Lam, M.A., Sally S. Dickerson, PhD, Psychology and Social Behavior, University of California, Irvine, Irvine, CA, Peggy M. Zoccola, PhD, Psychology, Ohio University, Athens, OH

144) Abstract 1076
TRADE ANXIETY AND TRAUMA: CORRELATES OF RESILIENCE IN THE LGBT COMMUNITY
Celina V. Rocha, Elliot J. Lopez, Masters, Mark A. Vosick, PhD, Psychology, Denise Catalano, PhD, Education, University of North Texas, Denton, TX

145) Abstract 1417
EFFECTS OF BRIEF STRESS MANAGEMENT ON NEUROENDOCRINE AND IMMUNE STATUS IN WOMEN UNDERGOING TREATMENT FOR NON-METASTATIC BREAST CANCER
Jamie M. Stagl, B.A., Psychology, University of Miami, Coral Gables, FL, Alain Diaz, M.S., Bonnie B. Blomberg, PhD, Microbiology and Immunology, Suzanne C. Lechner, PhD, Psychiatry and Behavioral Sciences, University of Miami Miller School of Medicine, Miami, FL, Charles C. Carver, PhD, Sara Vargas, M.S., Emily Lattie, B.S., Psychology, Michael H. Antoni, PhD, Psychology, Psychiatry and Behavioral Sciences, University of Miami, Coral Gables, FL

146) Abstract 1753
ANTICIPATORY NAUSEA IN CANCER CHEMOTHERAPY: PREDICTING ITS INCIDENCE AND SEVERITY TO FACILITATE THE DEVELOPMENT OF EFFECTIVE INTERVENTIONS
Max E. Levine, PhD, Kristina M. Pazino, BA, Psychology, Siena College, Loudonville, NY, Kenneth L. Koch, MD, Internal Medicine, Wake Forest University School of Medicine, Winston-Salem, NC

147) Abstract 1290
PSYCHONEUROIMMUNE PATHWAYS RELATED TO CANCER FATIGUE
Abigail N. Thompson, Psychological and Brain Sciences, University of Louisville, Louisville, KY, Anees B. Chaglar, MD, Oncology, Yale University, New Haven, Connecticut, Firdaus S. Dhabar, PhD, Jean M. Tillie, BS, Psychiatry and Behavioral Sciences, Stanford Cancer Center, Stanford School of Medicine, Stanford, California, Elizabeth Lush, M.S., Psychological and Brain Sciences, University of Louisville, Louisville, Kentucky, Eric Dedert, PhD, Psychology, Duke University Medical Centers, Durham, North Carolina, Meagan B. Daup, M.A., Psychological and Brain Sciences, University of Louisville, Louisville, Kentucky, David Spiegel, MD, Psychiatry and Behavioral Sciences, Stanford University School of Medicine, Stanford, California, Ehab Dayyat, MD, School of Medicine, UofL Graduate Medical Education, Louisville, Kentucky, Kelly M. McMasters, MD/PhD, Surgical Oncology, UofL School of Medicine, Louisville, Kentucky, Sandra E. Sephton, PhD, Psychological and Brain Sciences, University of Louisville, Louisville, Kentucky

148) Abstract 1201
MEDITATION IMPROVES COGNITIVE DYSFUNCTION, MENTAL HEALTH, AND SPIRITUALITY IN WOMEN WITH BREAST CANCER
Kelly Biegler, PhD, Alejandro Chaoul, PhD, Tenzin W. Rinpoche, Geshe, Amy Spelman, PhD, Christina Meyers, PhD, Deborah Fry, PhD, Jennifer Huber, MS, Iden Zelinai, BS, Banu Arun, MD, Janna Taylor, MA, Lorenzo Cohen, PhD, The University of Texas MD Anderson Cancer Center, Houston, TX, USA, Ligmincha Institute, Charlottesville, VA, USA

149) Abstract 1408
DIURNAL CORTISOL DYSREGULATION, INTERLEUKIN-1 BETA, MOOD STATES, AND PARTNER STATUS IN WOMEN UNDERGOING TREATMENT FOR NON-METASTATIC BREAST CANCER
Jamie M. Stagl, B.A., Psychology, Michael H. Antoni, PhD, Psychology, Psychiatry and Behavioral Sciences, University of Miami, Coral Gables, FL, Bonnie B. Blomberg, PhD, Microbiology and Immunology, Suzanne C. Lechner, PhD, Psychiatry and Behavioral Sciences, University of Miami Miller School of Medicine, Miami, FL, Sara Vargas, M.S., Psychology, University of Miami, Coral Gables, FL, Alain Diaz, M.S., Microbiology and Immunology, University of Miami Miller School of Medicine, Miami, FL, Emily Lattie, B.S., Charles C. Carver, PhD, Psychology, University of Miami, Coral Gables, FL
150) Abstract 1214
CHANGES IN DIURNAL CORTISOL RHYTHMS IN OVARIAN CANCER PATIENTS UNDERGOING PRIMARY TREATMENT
Andrew D. Schrepf, BA, Lauren Clevenger, BA, Psychology, Koen DeGeest, MD, Obstetrics and Gynecology, University of Iowa, Iowa City, IA, Frank Penedo, PhD, Psychology, University of Miami, Coral Gables, FL, David Bender, MD, Michael Goodheart, MD, Obstetrics and Gynecology, University of Iowa, Iowa City, IA, Clemens Kirschbaum, PhD, Psychology, Technische Universität Dresden, Dresden, Germany, Anil K. Sood, MD, Gynecologic Oncology and Tumor Biology, The University of Texas MD Anderson Cancer Center, Houston, TX, Susan K. Lutgendorf, PhD, Psychology, Obstetrics and Gynecology, Urology, University of Iowa, Iowa City, IA

151) Abstract 1617
MINIMAL INTERPERSONAL INTERVENTION TO RADICALLY REDUCE ATTRACTION FROM DIABETES SELF-MANAGEMENT AND EDUCATION TRAINING (DSME/T): A PILOT STUDY
John M. Ruiz, PhD, Psychology, University of North Texas, Denton, Texas, Noel Santini, MD, Community Oriented Primary Care, Meghan Jardine, MS, Community Outpatient Primary Care, Sylvia Pickens, M.Ed., Donald B. Walsh, MS, Strategic Planning & Population Medicine, Parkland Health & Hospital System, Dallas, Texas

152) Abstract 1623
SOCIAL COMPARISONS BY PATIENTS WITH TYPE 2 DIABETES: DIFFERENTIATING ILLNESS SEVERITY AND COPING DIMENSIONS
Danielle Arigo, M.S., Joshua M. Smyth, PhD, Psychology, Syracuse University, Syracuse, NY

153) Abstract 1006
POSTTRAUMATIC STRESS DISORDER IS A RISK FACTOR FOR INCIDENT DIABETES
Jeffrey F. Scherrer, PhD, Research Service, Veterans Administration, St. Louis, MO, Patrick J. Lustman, PhD, Psychiatry, Washington University School of Medicine, St. Louis, MO, Timothy Chrusciel, MPH, Research Service, St. Louis Veterans Administration, St. Louis, MO, Lauren D. Garfield, MPH, Research Service, St. Louis VA Medical Center, St. Louis, MO, Kenneth E. Freedland, PhD, Robert M. Carney, PhD, Psychiatry, Washington University School of Medicine, St. Louis, MO, Richard Owen, MD, Psychiatry, Central Arkansas Veterans Healthcare System, Little Rock, AR, Kathleen K. Bucholz, PhD, Psychiatry, Washington University School of Medicine, St. Louis, MO, William R. True, PhD, Research Service, St. Louis VA Medical Center, St. Louis, MO

154) Abstract 1774
THE EFFECTS OF CHILDHOOD SOCIOECONOMIC STATUS ON SELF-REPORTED GENERAL HEALTH: STRUCTURAL REGRESSION ANALYSIS MODEL OF MEDIATING PSYCHOSOCIAL FACTORS
Alexandra L. Terrill, M.S., Psychology, Washington State University, Vancouver, WA, John M. Ruiz, PhD, Psychology, University of North Texas, Denton, TX, John P. Garofalo, PhD, Psychology, Washington State University, Vancouver, WA

155) Abstract 1272
BLUNTED STRESS CORTISOL REACTIVITY AND RISK FACTORS FOR ALCOHOLISM: ADVERSE LIFE EVENTS AND ANTISOCIAL BEHAVIOR IN THE OKLAHOMA FAMILY HEALTH PATTERNS PROJECT
Kristen H. Sorocco, PhD, DWR Dept. Geriatric Medicine, Noha H. Farag, PhD, Epidemiology, College of Public Health, University of Oklahoma Health Sciences Center, Oklahoma City, OK, Andrea S. Vincent, PhD, Center for the Study of Human Operator Performance, University of Oklahoma, Norman, OK, William R. Lovaia, PhD, Behavioral Sciences Laboratories, OKC Veterans Affairs Medical Center, Oklahoma City, Oklahoma

156) Abstract 1197
REPETITIVE THOUGHT FLEXIBILITY FLATTENS CORTISOL SLOPE IN OLDER ADULTS
Jaime K. Hardy, M.S., Psychology, University of Kentucky, Lexington, KY, Sandra E. Sephton, PhD, Department of Psychological and Brain Sciences, University of Louisville, Louisville, KY, Suzanne C. Segerstrom, PhD, Psychology, University of Kentucky, Lexington, KY

157) Abstract 1734
ONLINE HEALTH INFORMATION AND INTENTIONS TO SEEK HEALTHCARE
Tana M. Luger, MA, Jerry Suls, PhD, Psychology, University of Iowa, Iowa City, IA

158) Abstract 1325
EVALUATING TECHNOLOGY-BASED ECOLOGICAL MOMENTARY INTERVENTIONS [EMI]: A PALMTOP COMPUTER INTERVENTION FOR YOUNG WOMEN WITH DISORDERED EATING
Kristin E. Heron, M.S., Department of Psychiatry and Human Behavior, Alpert Medical School of Brown University, Providence, Rhode Island, Joshua M. Smyth, PhD, Department of Psychology, Syracuse University, Syracuse, New York
159) Abstract 1280
A SIMPLE 15 MIN EXERCISE TASK IMPROVES THE ANTIBODY RESPONSE TO PNEUMOCOCCAL VACCINATION
Kate M. Edwards, PhD, Meredith Pung, PhD, Lianne Tomfohr, MS, Psychiatry, University of California. San Diego, La Jolla, CA, John R. Campbell, PhD, Medicine, University of Birmingham, Birmingham, West Midlands, UK, Michael G. Ziegler, M.D, Medicine, University of California. San Diego, La Jolla, CA, Mark T. Drayson, M.D, Medicine, University of Birmingham, Birmingham, West Midlands, UK, Paul J. Mills, PhD, Psychiatry, University of California. San Diego, La Jolla, CA

160) Abstract 1310
CHANGES IN SERUM LEVELS OF PYROGENIC AND CRYOGENIC CYTOKINES ASSOCIATED WITH THE TREATMENT OF PSYCHOC FACTOR FEVER.
Takakazu Oka, MD, Ph.D, Psychosomatic Medicine, Kyushu University, Fukuoka, Japan, Takashi Mera, Haruo Hayashi, MD, Ph.D, Radiology, University of Occupational and Environmental Health, Kitakyushu, Japan

161) Abstract 1721
BIOLOGICAL SENSITIVITY TO LIFESTYLE REDESIGN INTERVENTION IN THE WELL ELDERLY: LINKS BETWEEN TREATMENT EFFECTS AND SALIVARY CORTISOL
Sarah L. Szanton, PhD, Health Systems and Outcomes, Doug A. Granger, PhD, Acute and Chronic Care, Johns Hopkins University, Baltimore, MD, Barbara J. Cherry, PhD, Psychology, California State at Fullerton, Fullerton, CA, Deborah Mandel, MA, Occupational Science and Occupational Ther, University Southern California, Los Angeles, CA, Mei-Yang Lai, MS, Department of Biostatistics, Keck School of Medicine, Los Angeles, CA, USC, Michael Carlson, PhD, Stanley Azen, PhD, Florence Clark, PhD, Occupational Science and Occupational Ther, University Southern California, Los Angeles, CA

162) Abstract 1792
INCREASED EVENING CORTISOL IN HEALTHY WOMEN REPORTING FATIGUE AND POOR SLEEP
KaMala S. Thomas, PhD, Psychology, Pitzer College, Claremont University Consortium, Claremont, CA, Julienne Bower, PhD, Psychology and Psychiatry, University of California, Los Angeles, Los Angeles, CA, Michael R. Irwin, PhD, Psychiatry, UCLA, Los Angeles, CA, Timothy Williamson, BA, in progress, Psychology, Pitzer College, Claremont, CA, Michael Hoyt, PhD, Psychology, UC Merced, Merced, CA, Annette Stanton, PhD, Psychology, UCLA, Los Angeles, CA, David Wellisch, PhD, Psychiatry, UCLA, Los Angeles, CA, UCLA

163) Abstract 1847
RELATIONSHIP OF THE DIURNAL RHYTHM OF HEART RATE VARIABILITY WITH PLASMA INTERLEUKIN-6 AND SALIVARY ALPHA-AMYLASE
Myriam V. Thoma, PhD, Psychology, Brandeis University, Waltham, Massachusetts, Emily R. Berman, Psychology, Wesleyan University, Middletown, CT, Stephen J. Gray, Psychology, Brandeis University, Waltham, Massachusetts, June A. He, Michelle H. Lerman, Kristen M. Nichols, Marianne F. Specker, Diana Wang, Jutta M. Wolf, PhD, Nicolas Rohleder, PhD, Psychology, Brandeis University, Waltham, MA

164) Abstract 1315
INCREASING HEALTH BY LISTENING TO MUSIC? A STRUCTURAL EQUATION MODEL IN A HEALTHY POPULATION
Myriam V. Thoma, PhD, Psychology, Brandeis University, Waltham, Massachusetts, Urte Scholz, PhD, Urs M. Nater, PhD, Ulrike Ehler, PhD, Psychology, University of Zurich, Zurich, Zurich, Switzerland

165) Abstract 1767
ASSOCIATIONS BETWEEN SALIVARY ALPHA-AMYLASE AND CATECHOLAMINES - A MULTILEVEL MODELING APPROACH
Urs M. Nater, PhD, Beate Ditzen, PhD, Ulrike Ehler, PhD, Psychology, University of Zurich, Zurich, Zurich, Switzerland

166) Abstract 1613
EXAMINING THE ROLE THAT RUMINATION AND ANXIETY HAVE IN CONNECTING LONELINESS WITH POOR SLEEP QUALITY AND PERCEIVED CHRONIC STRESS
Matthew J. Zawadzki, M.S., Psychology, The Pennsylvania State University, University Park, PA, Jennifer E. Graham, PhD, William Gerin, PhD, Biobehavioral Health, The Pennsylvania State University, University Park, PA
167) Abstract 1279
CORTISOL REACTIVITY 15 YEARS AFTER THE NEW BEGINNINGS PROGRAM FOR CHILDREN FROM DIVORCED FAMILIES
Linda J. Luecken, PhD, Melissa J. Hagan, M.A., Nicole E. Mahrer, B.A., Sharlene A. Wolchik, PhD, Irwin N. Sandler, PhD, Jenn-Yun Tien, PhD, Psychology, Arizona State University, Tempe, AZ

168) Abstract 1823
HAIR SAMPLE CORTISOL AND DISTRESS RESPONSES FOLLOWING DEATH OF PEERS ON A UNIVERSITY CAMPUS
Judith P. Andersen, PhD, Billie Koperwas, BS in progress, Psychology, Cornell University, Ithaca, NY, Clemens Kirschbaum, PhD, Lehrstuhl Biopsychologie, Technische Universität Dresden, Dresden, Germany, Roxane C. Silver, PhD, Psychology and Social Behavior, University of California, Irvine, Irvine, CA

169) Abstract 1872
NATURALLY OCCURRING STRESS AND DEPRESSION ARE ASSOCIATED WITH SYMPATHETIC BUT NOT PARASYMPATHETIC RESPONSES TO STRESS.
Stephanie L. Bowlin, BA Psychology, Tara L. Kraft, BA Psychology, Sarah L. Pressman, PhD, Maggie L. Searight, BA in progress, Psychology, University of Kansas, Lawrence, KS

170) Abstract 1375
INCIDENCE RATE AND PREDICTORS OF IRRITABLE BOWEL SYNDROME: A 8-YEAR COHORT STUDY IN JAPAN
Yasushi Fujii, PhD in Human Sciences, Jun KANNO, M.A. in Psychology, Shinobu NOMURA, PhD in Philosophy, MD, Human Sciences, Waseda University, Tokorozawa, Saitama, JAPAN

171) Abstract 1245
SALIVARY CORITISOL AND DHEA-S RESPONSE UNDER ACUTE PSYCHOSOCIAL STRESS IN INDIVIDUALS WITH IRRITABLE BOWEL SYNDROME
Nagisa Sugaya, PhD, Faculty of Human Sciences, Waseda University, Tokorozawa, Saitama, Japan, Shuhei Izawa, PhD, National Institute of Occupational Safety and Health, Kawasaki, Kanagawa, Japan, Kenta Kimura, PhD, Graduate School of Environmental Studies, Nagoya University, Nagoya, Aichi, Japan, Namiko Ogawa, Graduate School of Human Sciences, Waseda University, Tokorozawa, Saitama, Japan, Kosuke C. Yamada, PhD, National Institute of Advanced Industrial Science, Koto-ku, Tokyo, Japan, Kentaro Shirotoki, PhD, Faculty of Human Relations, Tokai Gakuin University, Kaga-mihara, Gifu, Japan, Ikuo Mikami, Kanako Hirata, Graduate School of Human Sciences, Waseda University, Tokorozawa, Saitama, Japan, Yuichiro Nagano, Department of Human Studies, Bunkyo Gakuin University, Fuji-mino, Saitama, Japan, Shinobu Nomura, MD/PhD, Hironori Shimada, PhD, Faculty of Human Sciences, Waseda University, Tokorozawa, Saitama, Japan

172) Abstract 1376
NEURAL CORRELATES OF EMOTION PROCESSING IN DEPRESSED ADOLESCENTS WITH INFLAMMATORY BOWEL DISEASE PRE AND POST PSYCHOTHERAPY
Eva M. Szegethy, MD, Psychiatry and Pediatrics, Nell Jones, PhD, Jennifer Silk, PhD, Psychiatry, David Benhayon, MD, Psychiatry and Gastroenterology, Margaret A. Kirshner, BA, Melissa Newara, MS, Emily Brickell, BS, Psychiatry, Kyung Hwa Lee, MS, Psychology, Greg Siegle, PhD, Psychiatry, University of Pittsburgh, Pittsburgh, PA

173) Abstract 1850
HIGH ADHERENCE ENHANCES EFFECTS OF MINDFULNESS-BASED STRESS REDUCTION
Michael A. Cohn, PhD, Medicine, Elissa S. Epel, PhD, Psychiatry, Judith T. Moskowitz, PhD, Patricia Moran, PhD, Michael Acree, PhD, Susan Folkman, PhD, Frederick M. Hecht, MD, Medicine, University of California, San Francisco, San Francisco, CA

174) Abstract 1659
PARENTS JUST DON’T UNDERSTAND? PARENTAL SOCIAL SUPPORT AS A MEDIATOR OF STRESS AND QUALITY OF LIFE IN HIV-INDIVIDUALS
Sam H. Deacon, Psychology, University of North Texas, Denton, Texas, Thomas DeSena, Mark Vosvick, PhD, Psychology, University of North Texas, Denton, Texas

175) Abstract 1854
PERCEIVED STRESS AS A MEDIATOR BETWEEN SELF-EFFICACY AND DEPRESSION IN PLH
Eddie C. Parks, Bachelor of Science, Psychology, University of North Texas, Richardson, Texas, Mark Vosvick, PhD, Chwee-Lye Chng, PhD, Psychology, University of North Texas, Denton, Texas
176) Abstract 1657
HAZARDOUS DRUG USE AND SEXUAL RISK BEHAVIORS AMONG OFFENDERS WITH SUBSTANCE USE DISORDERS MAINTAINED ON PSYCHOTROPIC MEDICATIONS
Dorothy O. Jackson, M.A., Psychology, University of Alabama at Birmingham, Birmingham, AL, Sylvie Mrug, PhD, Psychology, University of Alabama at Birmingham, Birmingham, AL, Foster Cook, M.A., Psychiatry, University of Alabama at Birmingham, Birmingham, AL, William Beidleman, PhD, Psychiatry, Birmingham Veterans Affairs Medical Center, Birmingham, AL, Karen Cropsey, Psy.D., Psychiatry, University of Alabama at Birmingham, Birmingham, AL

177) Abstract 1091
NONLINEAR LONGITUDINAL ASSOCIATIONS OF DEPRESSIVE SYMPTOMS WITH BLOOD PRESSURE
Mauli Shah, B.A., Psychology, University of Maryland, Baltimore County, Baltimore, MD, Alan B. Zonderman, PhD, Intramural Research Program, National Institute on Aging, NIH, Baltimore, MD, Shari R. Waldstein, PhD, Psychology, University of Maryland, Baltimore County, Baltimore, MD

178) Abstract 1183
PREDICTORS OF ADHERENCE TO HEALTHCARE PROVIDER HYPERTENSION BEHAVIORAL TREATMENT RECOMMENDATIONS: BRFSS 2009 FINDINGS
Eric R. Hanson, M.A., Narineh Hartoonian, M.S., Karen T. Lesniak, PhD, Psychology, Loma Linda University, Loma Linda, CA

179) Abstract 1024
NEURAL CORRELATES OF PROVIDING SUPPORT TO A LOVED ONE
Tristen K. Inagaki, M.A., Naomi I. Eisenberger, PhD, Psychology, University of California, Los Angeles, Los Angeles, CA

180) Abstract 1390
RELATIONSHIP QUALITY AND ALLOSTATIC LOAD IN MIDDLE-AGED AND OLDER ADULTS
Kathryn P. Brooks, M.A., Psychology, Teresa E. Seeman, PhD, Medicine, Division of Geriatrics, UCLA, Los Angeles, CA

181) Abstract 1754
THE IMPORTANCE OF BLOOD STIMULI AND DISGUST IN THE VASOVAGAL RESPONSE: AN EXPERIMENTAL INVESTIGATION.
Philippe T. Gilchrist, M.A., Crystal D. Holly, B.Sc., Blaine Ditto, PhD, Psychology, McGill University, Montreal, Quebec, Canada

182) Abstract 1713
THE ROLE OF APPLIED TENSION IN VASOVAGAL SYNCOPE: CARDIOVASCULAR ACTIVITY OR ANXIETY REDUCTION?
Crystal D. Holly, BSc, Philippe Gilchrist, MA, Blaine Ditto, PhD, Saharnaz Balegh, BSc, Psychology, McGill, Montreal, Quebec, Canada

183) Abstract 1676
ONLINE EXERCISE COACHING VS. ONLINE COGNITIVE BEHAVIORAL THERAPY FOR DEPRESSION: A NATURALISTIC OUTCOMES STUDY
Dana C. Nevedal, M.A., Behavioral Sciences and Data Analytics, HealthMedia Inc., Ann Arbor, MI, Chun Wang, M.S., Behavioral Science & Data Analytics Group, HealthMedia, Inc, Ann Arbor, Michigan, Steve Schwartz, PhD, Behavioral Sciences and Data Analytics Group, Eli W. Carter, B.S., Behavioral Sciences and Data Analytics, HealthMedia Inc., Ann Arbor, MI

184) Abstract 1401
SOCIAL CONSTRAINT INCREASES RUMINATION TO RACE-RELATED MALTREATMENT
Jahanara Ullah, M.A., Elizabeth Brondolo, PhD, Psychology, St. John’s University, Jamaica, NY, Joseph Schwartz, PhD, Psychiatry and Behavioral Science, Stony Brook University Medical Center, Stony Brook, NY

185) Abstract 1688
DECIPHERING INTERFERON-INDUCED SIGNAL PATHWAYS IN DEPRESSION THROUGH THE STUDY OF HYPER-PHOSPHORYLATED STAT1
Thomas Meyer, Julia Staab, Cardiology, University of Marburg, Marburg, Germany, Christoph Herrmann-Lingen, Psychosomatics, University of Göttingen, Göttingen, Germany
186) Abstract 1689
EXPRESSING MUTANT STAT1 TRANSCRIPTION FACTOR AS AN EXPERIMENTAL APPROACH FOR THE STUDY OF INTERFERON-INDUCED SIGNAL TRANSDUCTION IN DEPRESSION
Thomas Meyer, Psychosomatics, University of Göttingen, Göttingen, Germany, Julia Staab, Cardiology, University of Marburg, Marburg, Germany, Christoph Herrmann-Lingen, Psychosomatics, University of Göttingen, Göttingen, Germany

187) Abstract 1069
RESPIRATORY SINUS ARRHYTHMIA DURING EPISODES OF RELIVED SADNESS: THE ROLE OF EMOTIONAL INTELLIGENCE AND AFFECT INTENSITY
Josh A. Rash, M.Sc.(Candidate), Ken M. Prkachin, PhD, Psychology, University of Northern British Columbia, Prince George, British Columbia, Canada

188) Abstract 1344
RESPIRATORY GAINS DURING A BRIEF INTERVENTION TARGETING HYPERVENTILATION IN BLOOD PHOBIA
Erica S. Ayala, B.A., Thomas Ritz, PhD, Alicia E. Meuret, PhD, Psychology, Southern Methodist University, Dallas, Texas

189) Abstract 1820
NUCLEUS ACCUMBENS ACTIVATION IN RESPONSE TO AN ATTACHMENT FIGURE: REPLICATION AND EXTENSION OF FINDINGS IN COMPLICATED GRIEF
Christian R. Schultze-Florey, Pre-degree MD/PhD, Mary-Frances O’Connor, PhD, Psychiatry, UCLA Cousins Center for Psychoneuroimmunology, Los Angeles, California

190) Abstract 1334
ROLE OVERLOAD AND SOCIAL ROLE DISTRESS IN EARLY INFLAMMATORY ARTHRITIS
Sally S. Mustafa, PhD, Pharmacology, The University of Lahore, Islamabad, Pakistan, Karl J. Looper, MD, Phyllis Zelkowitz, EdD, Psychiatry, Margaret Purden, PhD, Nursing, Murray Baron, MD, Rheumatology, McGill University, Montreal, Quebec, Canada

191) Abstract 1587
OUTCOMES AND PREDICTORS A NOVEL EMOTIONAL AWARENESS AND EXPRESSION TREATMENT FOR CHRONIC PAIN
Amanda J. Burger, PhD, Psychology, Cedarville University, Cedarville, Oh, Howard Schubiner, MD, Internal Medicine, Providence Hospital, Southfield, Michigan, Jennifer N. Carty, B.A., Deborah A. Valentino, B.S., Elyse R. Sklar, B.S., Maren Hyde-Nolan, B.S., Alaa Hijazi, M.A., Mark A. Lumley, PhD, Psychology, Wayne State University, Detroit, Michigan

192) Abstract 1704
SLEEP AS A PREDICTOR OF POST-SURGERY ANALGESIA (PCA) USE
Maren E. Hyde-Nolan, B.S., Psychology, Wayne State University, Detroit, Michigan, Mark A. Lumley, PhD, Psychology, Wayne State University, Detroit, MI, Christina Diederichs, B.A., Timothy A. Roehrs, PhD, Sleep Disorders and Research Center, Henry Ford Health System, Detroit, MI

193) Abstract 1836
COLD PAIN-EVOKED BLOOD PRESSURE RESPONSES ARE DISSOCIATED FROM ACUTE PAIN SENSITIVITY FOLLOWING SUPPRESSION OF ANGER AMONG HEALTHY NORMOTENSIVE PARTICIPANTS
Phillip J. Quartana, PhD, Psychiatry and Neuroscience, Walter Reed Army Institute of Research, Silver Spring, MD, John W. Burns, PhD, Behavioral Sciences, Rush University, Chicago, IL, Stephen Bruehl, PhD, Anesthesiology, Vanderbilt University School of Medicine, Nashville, TN

194) Abstract 1191
ARE SOCIAL SUPPORT AND INVALIDATION INDEPENDENT PREDICTORS OF MENTAL AND PHYSICAL HEALTH IN PATIENTS WITH RHEUMATIC DISEASES?
Marianne B. Kool, MSc, Clinical and Health Psychology, Utrecht University, Utrecht, The Netherlands, Henriët Van Middendorp, PhD, Johannes W J. Bijlsma, MD, Rheumatology and Clinical Immunology, University Medical Center Utrecht, Utrecht, The Netherlands, Rinie Geenen, PhD, Clinical and Health Psychology, Utrecht University, Utrecht, The Netherlands

195) Abstract 1838
GENDER DIFFERENCES IN PERIPHERAL NEUROPATHY OF THE LOWER EXTREMITY: A POPULATION BASED SURVEY
Sharada Tata, M.S., Stephen J. Morewitz, PhD, & Associates, San Francisco, CA, Stephen Morewitz, PhD, Nursing and Health Sciences, California State University, East Bay, San Francisco, CA, Joel Clark, D.P.M., Podiatric Surgery, St. Mary’s Medical Center, California School of Podiatric Medicine, San Francisco, CA
196) Abstract 1798
THE RELATIONSHIP BETWEEN SYMPTOM SEVERITY AND PHYSICAL ACTIVITY IN FIBROMYALGIA: THE ROLE OF MODERATION
John E. Schmidt, PhD, Scott E. Feeder, MS, Psychiatry and Psychology, Ann Vincent, MD, General Internal Medicine, Michael J. Joyner, MD, Anesthesiology, Mayo Clinic, Rochester, MN

197) Abstract 1333
DAILY PHYSICAL COMPLAINTS AND ACTIVITY IN THE HIPPOCAMPAL FORMATION IN RESPONSE TO PAIN MODULATION MEDIATED BY ANXIETY
Motoharu Gondo, Psychosomatic Medicine, University of Kyushu, Fukuoka, Japan, Yoshiya Moriguchi, Psychophysiology, Noriko Sato, Radiology, National Center of Neurology and Psychiatry, Tokyo, Japan, Nobuyuki Sudo, Psychosomatic Medicine, University of Kyushu, Fukuoka, Japan, Gen Komaki, Psychosomatic Research, National Center of Neurology and Psychiatry, Tokyo, Japan

198) Abstract 1772
MAKING THE BIOLOGICAL CONNECTION BETWEEN SLEEP AND PRETERM BIRTH: A PRELIMINARY LOOK
Michele L. Okun, PhD, Psychiatry, Jim Luther, EDC, Stephen Wisniewski, PhD, Epidemiology, Katherine L. Wisner, MD, Psychiatry, University of Pittsburgh, Pittsburgh, PA

199) Abstract 1085
THE SLEEPINESS OF OBSTRUCTIVE SLEEP APNEA PATIENTS IS MODIFIED BY THEIR DEPRESSIVE SYMPTOMS
Reiko Hori, Health and Psychosocial Medicine, Ryujiro Sasanabe, Toshiaki Shiomi, Sleep Medicine, Fumio Kobayashi, Health and Psychosocial Medicine, Aichi Medical University School of Medicine, Nagakute, Aichi, Japan

200) Abstract 1624
DOES ANXIETY AND DEPRESSION INCREASE THE RISK FOR EXACERBATION IN PATIENTS WITH COPD? A SYSTEMATIC REVIEW AND A META-ANALYSIS
Gregory Moullec, PhD, Catherine Laurin, PhD, Simon L. Bacon, PhD, Kim L. Lavoie, PhD, Exercise Science, Psychology, Medecine, Univ. of Concordia, UQAM, Univ. of Montreal, Montreal, Canada

201) Abstract 1149
ECOLOGICAL MOMENTARY ASSESSMENT (EMA): A NEW WAY TO EVALUATE PSYCHOLOGICAL IMPACT OF PULMONARY REHABILITATION IN COPD PATIENTS?
Gregory Moullec, PhD, Psychology, Chest Medicine, Exercise Science, UQAM, Hosp Sacré-Coeur, Concordia, U1, Montreal, Montpellier, Canada, Gregory Ninot, PhD, Veronique Pepin, PhD, Catherine Laurin, PhD, Amanda Rizk, M.Sc., Jacob Ariane, B.Sc., Kim L. Lavoie, PhD, Psychology, Chest Medicine, Exercise Science, UQAM, Hosp Sacré-Coeur, Concordia, U1, Montreal, Montpellier, Canada, France

202) Abstract 1336
THE ASSOCIATION BETWEEN TYPE D PERSONALITY AND ADULT ASTHMA IN A COMMUNITY SAMPLE
Adrian Loerbroks, PhD, Mannheim Institute of Public Health, Heidelberg University, Mannheim, Germany, Antoinette M. Pommer, MSc, Paula MC Mommersteeg, PhD, Center of Research on Psychology in Somatic Diseases, Tilburg University, Tilburg, The Netherlands

203) Abstract 1743
SALIVARY PROTEINS AND LEUKOTRIENE B4 LEVELS DURING PSYCHOSOCIAL STRESS TESTING IN ASTHMATICS AND HEALTHY INDIVIDUALS
Ana F. Trueba, BS, Psychology, Pia Vogel, PhD., Biochemistry, Thomas Ritz, PhD., Psychology, Southern Methodist University, Dallas, TX

204) Abstract 1305
ASSOCIATIONS BETWEEN CHILDHOOD ASTHMA AND PARENTING STYLES: A PROSPECTIVE STUDY
Crista N. Crittenden, MPH, Sheldon Cohen, PhD, Psychology, Carnegie Mellon University, Pittsburgh, PA, Patrick T. Davies, PhD, Clinical and Social Psychology, University of Rochester, Rochester, NY, Dante Cicchetti, PhD, Institute of Child Development, University of Minnesota, Minneapolis, MN
205) Abstract 1122
PRE-OPERATIVE ILLNESS PERCEPTIONS ARE ASSOCIATED WITH HEALTH STATUS FOLLOWING CARDIAC SURGERY
Lydia F. Poole, MSc, Tara Kidd, PhD, Department of Epidemiology and Public Health, University College London, London, England, Marjan Jahangiri, MS, Department of Cardiac Surgery, St George’s Hospital, London, England, Andrew Steptoe, DSc, Department of Epidemiology and Public Health, University College London, London, England

206) Abstract 1643
PERCUTANEOUS CORONARY INTERVENTION PREDICTS ANXIETY SEVERITY AMONG PATIENTS WITH IMPLANTABLE CARDIOVERTER DEFIBRILLATORS
Julia D. Betensky, M.S., Richard J. Contrada, Ph.D, Jan Mohlman, PhD, Psychology, Rutgers, The State University of New Jersey, Piscataway, NJ

207) Abstract 1352
THE COSTS AND BENEFITS OF CHILDREN EATING FISH: LIPIDS, MERCURY, AND HEALTH
Brooks B. Gump, PhD, Health and Wellness, Syracuse University, Syracuse, NY, Kestutis Bendinskas, PhD, Chemistry, SUNY Oswego, Oswego, NY, Robert Morgan, MD, Family Medicine, Oswego Hospital, Oswego, NY, Amy K. Dumas, BA, Psychology, SUNY Oswego, Oswego, NY, Christopher D. Palmer, PhD, Laboratory of Inorganic and Nuclear Chemistry, Wadsworth Center, NYS Dept. of Health, Albany, NY, Patrick J. Parsons, PhD, Environmental Health Sciences, The University of Albany, Albany, NY, James A. MacKenzie, Biological Sciences, SUNY Oswego, Oswego, NY

208) Abstract 1365
PERFLUOROCHEMICAL (PFC) EXPOSURE IN CHILDREN: ASSOCIATIONS WITH IMPAIRED RESPONSE INHIBITION AND RISKY BEHAVIOR
Brooks B. Gump, PhD, Health and Wellness, Syracuse University, Syracuse, NY, Qian Wu, BS, Environmental Health Sciences, The University of Albany, Albany, NY, Amy K. Dumas, BA, Psychology, SUNY Oswego, Oswego, NY, Kurunthachalam Kannan, PhD, Environmental Health Sciences, The University of Albany, Albany, NY

209) Abstract 1116
HYPOTHALAMIC-PITUITARY-ADRENAL DYNAMICS IN FUNCTIONAL SOMATIC DISORDERS: A SYSTEMS APPROACH TO ASSESSING ALLOSTASIS
Kirstin E. Aschbacher, PhD, Psychiatry, University of California San Francisco, San Francisco, CA, Emma K. Adam, PhD, Human Development and Social Policy, Northwestern University, Evanston, IL, Margaret E. Kemeny, PhD, Psychiatry, University of California San Francisco, San Francisco, CA, Leslie J. Crofford, MD, Department of Internal Medicine, University of Kentucky, Lexington, KY, Mark Demitrack, MD, Neuronetics, Inc., Malvern, PA, Amos Ben-Zvi, PhD, Chemical and Materials Engineering, University of Alberta, Edmonton, AB, Canada

210) Abstract 1414
THE CHRONIC STRESS OF CAREGIVING IS ASSOCIATED WITH INCREASED OXIDATIVE DAMAGE TO RNA/DNA
Kirstin Aschbacher, PhD, Psychiatry, University of California San Francisco, San Francisco, CA, Firdaus Dhabhar, PhD, Psychiatry & Behavioral Sciences, Stanford University, Stanford, CA, Yali Su, PhD, Kronos Science, Phoenix, AZ, Owen M. Wolkowitz, MD, Eli Puterman, PhD, Psychiatry, Synthia Mellon, PhD, Department of Obstetrics, Gynecology & Reproductive, Elissa Epel, PhD, Psychiatry, University of California San Francisco, San Francisco, CA

211) Abstract 1370
AGONISTIC STRIVING, EVERYDAY SELF-REGULATION, AND BLOOD PRESSURE: A MODERATION ANALYSIS
Jessica H. Schoolman, BA, Gavin J. Elder, MA, Mariam Parekh, BA, Craig K. Ewart, PhD, Psychology, Syracuse University, Syracuse, NY

212) Abstract 1100
RELATIONSHIP OF RESTING DIASTOLIC FUNCTION AND STRESS INDUCED LEFT VENTRICULAR DYSFUNCTION IN PATIENTS WITH STABLE CORONARY HEART DISEASE
Wei Jiang, MD, Medicine and Psychiatry & Behavioral Sciences, Litong Qi, MD, Cardiology, Carolyn M. Martberger, PhD, Biological Psychiatry, Zainab Samad, MD, Joseph Rogers, MD, Cardiology, Redford Williams, MD, Behavioral Psychiatry and Medicine, Ranga Krishnan, MD, Psychiatry and Behavioral Sciences, Christopher M. O’Connor, MD, Eric J. Velazquez, MD, Cardiology, Duke University, Durham, NC
213) Abstract 1763
SUCCESSFUL BEHAVIORAL INTERVENTION TRIALS FOR CORONARY HEART DISEASE. DO THEY DIFFER BETWEEN MEN AND WOMEN?
Kristina Orth-Gomer, PhD, Christina Waldin, PhD, May Blom, PhD, Osher Center, Karolinska Institutet, Stockholm, Sweden, Frank Zimmermann-Viehoff, Hans-Christian Deter, MD, Psychosomatic Medicine, Charité Universitätsmedizin, Berlin, Germany

214) Abstract 1144
RESTING STATE BRAIN CORRELATES OF BAROREFLEX FUNCTION

6:30 - 7:30 pm
SPECIAL INTEREST GATHERINGS

Clinician’s Interests
The Clinician’s happy hour welcomes all practicing clinicians. It will provide an opportunity to share your experience in the practice of Psychosomatic Medicine and discuss how to incorporate the knowledge from this APS meeting in your clinical work and research.

Ethnic Disparities
This special interest happy hour is for those with research and/or clinical interests in understanding ethnic disparities in health. The happy hour format provides an opportunity to informally chat with researchers and clinicians with similar interests in ethnic health disparities.

Intervention
This special interest gathering will provide researchers currently working in the area of biobehavioral/psychosomatic intervention research and/or delivery an opportunity to meet with colleagues in an informal setting.

Neuroscience and Psychosomatic Medicine
This informal get together will provide clinicians and researchers the opportunity to exchange ideas. The recipient of the Paul D. MacLean Award and the MacLean Scholars have been invited to participate.

Psychoneuroimmunology
This special interest happy hour will provide researchers currently working in the field of PNI and those new to this area of study the opportunity to exchange research ideas in an informal and interactive setting.
Saturday, March 12, 2011

6:45 am - 5:00 pm  REGISTRATION  Salon E Foyer
A light continental breakfast will be served from 6:45 to 8:00 am.

7:00 - 8:00 am  COMMITTEE MEETINGS

2011/2012 Program Committee Meeting  Conference Room 7
Minority Initiative Meeting  Conference Room 9

8:00 - 8:55 am  APS BUSINESS MEETING  Salon E
The APS Business Meeting is open to all members and will feature brief updates from the APS leadership regarding the previous year's activities, and plans for the upcoming year. This is a great opportunity to become involved in the activities of the Society, and learn more about what APS has to offer you.

9:00 - 9:55 am  CONCURRENT SESSIONS

**Invited Presentation: PROMIS®: Improved Patient Reported Outcomes for Clinical Research**

*Chair: Douglas Delahanty, PhD*
*Presenter: Arthur A. Stone, PhD*

The Patient Reported Outcome Measurement and Information System (PROMIS) is a major NIH collaboration among many universities and organizations. Its goal is the development of reliable, precise, and flexible Patient Reported Outcomes (PROs) for clinical research, with an emphasis on outcomes for chronic diseases. Using the latest psychometric techniques, this effort has produced self-report item banks, short-forms, and computer adaptive tests for pain, fatigue, social functioning, emotional functioning, physical functioning, and sleep, with other domains in development. Many PROMIS domains are available for both adults and children. This presentation will discuss the methods used to produce PROMIS item banks and scales, will present the various forms of administration that are available (computer, paper-and-pencil, IVR, PDA), show data supporting the psychometric qualities of the instruments, and describe the Assessment Center, which is a free resource available to researchers to collect and manage self-report data on the Internet. The PROMIS tools are relevant for much of the research conducted by APS members, and this presentation will highlight the advantages of using PROMIS instruments.

**Paper Session: Psycho-oncology**

AWARDS TALK SERIES I

Salon E

Patricia R. Barchas Award: Pathways Linking Social Support to Health
Chair: Annette Stanton, PhD
Presenter: Shelley Taylor, PhD
Shelley Taylor will present ongoing research from her laboratory linking aspects of the social environment to genetic, neural, and neuroendocrine processes that are prognostic for health.

Paul D. MacLean Award: Order and Disorder in the Emotional Brain
Chair: Richard Lane, MD, PhD
Presenter: Richard J. Davidson, PhD
Emotions are at the core of human personality, they define each person’s uniqueness and they shape resilience and vulnerability to adversity. Perhaps the single most salient characteristic of emotion is the variability across individuals in how each responds to emotional cues and challenges. This variability is termed “affective style.” Different parameters of affective style can be objectively measured and are instantiated in different underlying neural circuits. Activation patterns assessed with neuroimaging, particularly those involving interactions between sectors of the prefrontal cortex and subcortical structures implicated in emotion, are related to different parameters of affective style and are consistent over time within individuals. Specific patterns of brain activity are related to vulnerability to particular types of disorders. Moreover, patterns of central brain function are related to peripheral biological systems that play a role in physical health and illness. Despite their consistency over time within individuals, these patterns of neural activity are not immutable to change but rather can be transformed through systematic mental training such as meditation. The literature on neuroplasticity provides a framework for understanding these changes. This latter body of evidence supports the view that happiness, well-being and emotional balance are best regarded as the product of trainable skills.

11:30 am - 12:45 pm

ROUNDTABLES/ MEETINGS (or lunch on your own)

The Emergence of Contemplative Neuroscience
Conference Room 9
Facilitator: Richard Davidson, PhD
This roundtable will provide an opportunity to discuss the recent emergence of rigorous neuroscientific research on the impact of contemplative practice on the brain and behavior. Recent trends and future challenges and opportunities in this area will be highlighted.

Mechanisms of Biobehavioral Processes and Health: The Contributions of Psychophysiology and Psychosomatic Medicine
Conference Room 7
Facilitators: Kristen Salomon, PhD; Mustafa al’Absi, PhD; David A. Sbarra, PhD; Eco J.C. deGeus, PhD; and J. Richard Jennings, PhD
The aim of this roundtable discussion is to continue to foster links between the American Psychosomatic Society (APS) and the Society for Psychophysiological Research (SPR). This APS session serves as a continuation of 2010 APS-SPR roundtable discussions at APS in Portland, Oregon and SPR in Berlin, Germany. This year, the roundtable will serve as format to discuss methodological developments as well as big questions facing the major areas of Psychophysiology and Psychosomatic Medicine. The roundtable will consist of five sub-area tables focused on a particular methodology: Cardiovascular, Endocrine, Immune, Neuroimaging, and Genetics. Each table will have an area expert to serve as the facilitator. These researchers work at the interface of classic psychophysiology and contemporary psychosomatic medicine, and the roundtable discussion will highlight not only tools of the trade, but also novel and emerging routes for creating more integrative science. Scientists at any career stages are welcome, but we especially encourage participation by graduate students and early-career investigators who are beginning to focus their work at the intersection of these two fields.

Membership Committee Meeting
Conference Room 10

12:45 - 2:00 pm

AWARDS TALK SERIES II

Salon E

Herbert E. Weiner Early Career Award: Why Rejection Hurts: An Examination of the Shared Mechanisms Underlying Physical and Social Pain
Chair: Shelley Taylor, PhD
Presenter: Naomi Eisenberger, PhD
Numerous languages characterize ‘social pain,’ the feelings resulting from social rejection or loss, with words typically reserved for describing physical pain (“broken hearts,” “hurt feelings”) and perhaps for good reason. It has been suggested that, in mammalian species, the social attachment system borrowed the computations of the physical pain system in order to prevent the potentially harmful consequences of social separation. In this talk, I will use a combination of behavioral and
neuroimaging methodologies to explore the notion that physical and social pain rely on overlapping neural and experiential processes. Specifically, I will examine: 1) whether social pain activates pain-related neural circuitry, 2) whether individual differences in sensitivity to one kind of pain relate to individual differences in sensitivity to the other (e.g. Are individuals who are more sensitive to physical pain also more sensitive to social pain?), and 3) whether factors that up- or down-regulate one type of pain affect the other in a similar manner (e.g., Can physical painkillers reduce social pain?).

Alvin P. Shapiro Award: Paving the Path from Mental Health Research into Practice: The Role of Primary Care/Mental Health Care Integration
Chair: Bruce Rollman, MD
Presenter: Lisa Rubenstein, MD

2:00 - 2:15 pm BREAK

2:15 - 3:30 pm CONCURRENT SESSIONS

Invited Symposium: Ideas to Interventions: Translating Basic Behavioral Science Discoveries into Behavioral Interventions
Chairs: Susan Czajkowski, PhD and Lynda Powell, PhD
Presenters: Susan Czajkowski, PhD, National Heart, Lung, & Blood Institute, NIH; Lynda Powell, PhD, Rush University Medical Center; Kim Reynolds, PhD, Claremont Graduate University; Elissa Epel, PhD, University of California, San Francisco
Discussant: Deborah Olster, PhD, Office of Behavioral & Social Sciences Research, NIH

Our ability to improve health-related behaviors, such as physical activity and dietary patterns, is dependent on increasing our understanding of the fundamental bases of human behavior and translating that knowledge into well-specified and effective interventions. In drug development, research concerned with the development, testing and refining of interventions is labeled “bench to bedside” or Translation I research. Translation I research begins with basic research to identify mechanisms and intervention targets, proceeds to the conduct of small-scale human trials to assess safety and optimal dosing, and often includes pilot studies to assess feasibility and provide estimates of yield and effect. These early phases of therapy development are followed by large-scale, Phase III clinical trials that test the effects of the treatment on the health outcomes of interest.

This paradigm is well-accepted and has produced a wealth of therapeutics that have enhanced the quality and quantity of life. In contrast, no similar paradigm exists for guiding the development of behaviorally-based interventions. Instead, knowledge and “best practices” concerning the design, methodology and analysis of studies for developing behavioral interventions is severely limited. In this symposium, members of the NIH-sponsored ORBIT (Obesity Related Behavioral Intervention Trials) program, aimed at developing new approaches to improve obesity-related behaviors based on basic behavioral and social science findings, will highlight both the opportunities and challenges inherent in developing behavioral interventions. Speakers will (1) present a framework or paradigm that can be used to guide Translation I/behavioral intervention development research; (2) describe the types of study designs and methods most useful for developing behavioral interventions; and (3) discuss ways that academic, medical and funding institutions can be structured to promote the creativity and innovation necessary for high-risk, translational research focused on behavioral intervention development. An exemplar of such research will then be presented, illustrating how basic behavioral research on stress, neurobiology and appetitive drive can lead to the development of novel interventional approaches to obesity. In closing, the discussant will review needs and opportunities in basic and translational behavioral science research and highlight NIH’s role in developing Translation I behavioral science.

MODELS OF BEHAVIORAL INTERVENTION DEVELOPMENT: CREATING A FRAMEWORK TO GUIDE TRANSLATION I BEHAVIORAL SCIENCE
Susan Czajkowski, PhD and Nancy Adler, PhD

The drug development model provides an overarching paradigm for translating basic biological research into efficacious therapies. In contrast, no standardized and accepted “paradigm” exists to describe and guide the process of translating basic behavioral and social science discoveries into efficacious behavioral interventions. In this talk, we present a phased approach to developing health-related behavioral interventions, based on the model being used in the ORBIT program and refined by participants in a recent NIH-sponsored Workshop entitled “Translating Ideas into Interventions: The Process of Developing Behavioral Interventions.” This framework is intended to encourage the development of well-characterized, appropriately tested and optimized behavioral interventions, which can guide researchers and funding agencies and provide explicit strategies for promoting behavior change and modifying psychosocial risk factors to improve health.
DESIGNS AND METHODS IN BEHAVIORAL INTERVENTION DEVELOPMENT RESEARCH: CONDUCTING STUDIES TO DEVELOP AND OPTIMIZE BEHAVIORAL INTERVENTIONS
Lynda Powell, PhD, Sylvie Naar-King, PhD and Christine Hunter, PhD
Little in the literature on behavioral clinical trials provides guidance in designing, conducting and analyzing the kind of “proof of concept” trials and pilot studies necessary to maximize the effectiveness of behavioral interventions prior to their testing in larger-scale Phase III trials.

In this talk, we provide a review of the kinds of study designs, methodologies and analytic techniques most appropriate for use in behavioral intervention development research. The presentation includes discussion of optimal study designs for each phase of the intervention development process; identification of appropriate controls, sample sizes, and outcomes for “proof of concept” and pilot studies; and the utility of novel designs (e.g., adaptive & fractional factorial designs, engineering models, systems science models) for developing behavioral interventions.

FOSTERING CREATIVITY: CREATING ENVIRONMENTS THAT PROMOTE INNOVATIVE TRANSLATIONAL BEHAVIORAL SCIENCE RESEARCH
Kim Reynolds, PhD and Linda Nebeling, PhD
Findings from basic behavioral science discoveries are often underutilized in the design & testing of health behavior change interventions due to lack of institutional support for the kind of high-risk, high-reward research involved in translational research. In this presentation, we will identify ways in which academic, medical, and funding institutions can promote innovation and creativity, laying the groundwork for the translation of novel behavioral science discoveries into more effective behavioral interventions. The talk will focus on the kinds of administrative, leadership, training and funding approaches that are needed to promote creative collaborations across basic and clinical researchers; reward risk-taking and innovation; and address barriers encountered by researchers wishing to move basic behavioral science ideas and findings into novel interventional approaches to addressing behavioral and psychosocial risk factors.

STRESS EATING AND ABDOMINAL OBESITY: FROM NEURONS TO NOVEL INTERVENTIONS
Elissa Epel, PhD, Jennifer Daubenmier, PhD, Barbara Laraia, PhD, Rick Hecht, MD and Jean Kristeller, PhD
In this talk, we present an example of a novel approach to the development of obesity-related behavioral interventions, based on basic behavioral science research that demonstrates the role of stress in the development of obesity. Our translational approach integrates the psychology of eating and behavior change, along with the neuroscience of stress, appetite and reward. We first present experimental animal and human studies showing that strong neurobiological signals involving both the reward and stress systems prime the drive to eat excessively, and that stress-induced cortisol secretion drives high fat and sugar intake and promotes abdominal fat. We propose that behavioral strategies informed by an in-depth understanding of appetitive drive can best modulate “non-homeostatic eating”—that is, eating reflexively in response to factors other than caloric need or hunger. We then discuss the development of mindfulness-based eating and stress reduction interventions for obesity, based on the basic science, and show preliminary findings.

Paper Session: Sleep and Cardiovascular Health

Abstract 1440
INDIVIDUAL DIFFERENCES IN IMPACT OF SLEEP LOSS ON CARDIOVASCULAR ADAPTATION TO STRESS
Brian M. Hughes, PhD, Jack E. James, PhD, Siobhàn Howard, PhD, Centre for Research on Occupational and Life Stress, National University of Ireland, Galway, Ireland

Abstract 1338
SHORTER AND MORE VARIABLE SLEEP DURATION ARE RELATED TO ELEVATED AMBULATORY BLOOD PRESSURE IN ADOLESCENTS
Elizabeth J. Mezick, M.S., Psychology, University of Pittsburgh, Pittsburgh, PA, Martica Hall, PhD, Karen A. Matthews, PhD, Psychiatry, University of Pittsburgh School of Medicine, Pittsburgh, PA
Abstract 1879
INSOMNIA SYMPTOMS PREDICT INCIDENT CARDIOMETABOLIC DISEASE
Martica H. Hall, PhD, Psychiatry and Psychology, University of Pittsburgh, School of Medicine, Pittsburgh, PA, Noora Sjösten, PhD, Unit of Excellence for Psychosocial Factors, Finnish Institute of Occupational Health, Turku, Finland, Mika Kivimäki, PhD, Epidemiology and Public Health, University College London, London, England, Paulo Salo, PhD, Unit of Excellence for Psychosocial Factors, Finnish Institute of Occupational Health, Turku, Finland, Jussi Vahtera, MD, PhD, Public Health, University of Turku, Turku, Finland

Paper Session: The Influences of Early Life Experiences and SES on Health
Chair: Ted Robles, PhD

Abstract 1664
LOW SOCIO-ECONOMIC STATUS AND JOB STRESS AMPLIFY THE EFFECTS OF LATENT CYTOMEGALOVIRUS INFECTION ON T CELL SENESCENCE
Jos A. Bosch, PhD, SPORTEX, University of Birmingham, Birmingham, United Kingdom, Adrian Loerbroks, PhD, MIPH, University of Heidelberg, Mannheim, Germany, Brian O’Hartaigh, MSc, SPORTEX, University of Birmingham, Birmingham, United Kingdom, Joachim E. Fischer, MD, MIPH, University of Heidelberg, Mannheim, Germany, Johannes C. Fischer, ITZ, Heinrich Heine University Dusseldorf, Dusseldorf, Germany

Abstract 1610
EVALUATING THE ROLE OF EARLY LIFE SOCIOECONOMIC STATUS IN THE ASSOCIATION BETWEEN CHILDHOOD EMOTIONAL FUNCTIONING AND INFLAMMATION IN ADULTHOOD: EVIDENCE FOR EFFECT MODIFICATION
Allison A. Appleton, ScD, Epidemiology, Harvard School of Public Health, Boston, MA, Stephen Buka, ScD, Community Health, Brown University, Providence, RI, Marie C. McCormick, MD, ScD, Karestan C. Koenen, PhD, Society, Human Development and Health, Harvard School of Public Health, Boston, MA, Eric B. Loucks, PhD, Community Health, Brown University, Providence, RI, Laura D. Kubzansky, PhD, Society, Human Development and Health, Harvard School of Public Health, Boston, MA

Abstract 1632
IMPLICIT MEASURES OF EARLY-LIFE FAMILY CONDITIONS: IMPLICIT MEASURES OF EARLY-LIFE FAMILY CONDITIONS: RELATIONSHIP TO ADULT PSYCHOSOCIAL AND CARDIOVASCULAR CHARACTERISTICS
Meanne Chan, BA, Gregory E. Miller, PhD, Nandini Maharaj, William Lee, BA, Edith Chen, PhD, Psychology, University of British Columbia, Vancouver, BC, Canada

Abstract 1209
EARLY LIFE EXPERIENCES, MENARCHEAL AGE, AND CARDIOVASCULAR RISK
Maria E. Bleil, PhD, Nancy E. Adler, PhD, Psychiatry, University of California San Francisco, San Francisco, CA, Barbara Sterinfeld, PhD, Division of Research, Kaiser Permanente, Oakland, CA, Renee A. Reijo-Pera, PhD, Obstetrics and Gynecology, Stanford University, Stanford, CA, Marcella I. Cedars, MD, Obstetrics, Gynecology, and Reproductive Sciences, University of California San Francisco, San Francisco, CA

Paper Session: Acute Stress Psychophysiology
Chair: Kristen Salomon, PhD

Abstract 1870
OXYTOCIN RECEPTOR POLYMORPHISM AND THE CARDIOVASCULAR STRESS RESPONSE
Sarah Pressman, PhD, Omri Gillath, PhD, Lora Black, MA, Yevgeny Botanov, MA, Psychology, Jackob Moskovitz, DSc, Pharmacology & Toxicology, Dean Stetler, PhD, Molecular Biosciences, University of Kansas, Lawrence, KS

Abstract 1350
ARE THREAT AND CHALLENGE APPRAISALS OF ACUTE STRESS ASSOCIATED WITH LEUKOCYTE TELOMERE LENGTH?
Aoife O’Donovan, PhD, Janet Tomiyama, PhD, Psychiatry, Jue Lin, PhD, Biochemistry and Biophysics, Eli Puterman, PhD, Margaret Kemeny, PhD, Owen Wolkowitz, MD, Alanie Lazaro, BA, Michael B. Rankin, BA, Nancy E. Adler, PhD, Psychiatry, Elizabeth H. Blackburn, PhD, Biochemistry and Biophysics, Elissa S. Epel, PhD, Psychiatry, University of California, San Francisco, San Francisco, CA
Abstract 1794
A NOVEL APPROACH TO ASSESS PSYCHOPHYSIOLOGICAL RESPONSES TO STRESS
Motohiro Nakajima, PhD, Mustafa al’Absi, PhD, Behavioral Sciences, University of Minnesota Medical School, Duluth, MN, Andrew Raij, PhD, Santosh Kumar, PhD, Computer Science, University of Memphis, Memphis, TN, Nathan Stohs, Computer Science and Engineering, Emre Ertin, PhD, Electrical Engineering, The Ohio State University, Columbus, OH, Patrick Blitz, Asim Smailagic, PhD, Institute for Complex Engineered Systems, Carnegie Mellon University, Pittsburgh, PA, Thomas Kamarck, PhD, Psychology, University of Pittsburgh, Pittsburgh, PA, Marcia Scott, PhD, Division of Epidemiology and Prevention Research, National Institute on Alcohol Abuse and Alcoholism, Bethesda, MD

Abstract 1616
STRESS-INDUCED CHANGES IN BLOOD COAGULATION AND HEMOCENTRATION
Anthony W. Austin, MA, Psychology, Ohio University, Athens, OH, Petra H. Wirtz, PhD, Clinical Psychology and Psychotherapy, Psychological Institute, University of Zürich, Zürich, Switzerland, Stephen M. Patterson, PhD, Psychology, Ohio University, Athens, OH, Monika Stutz, Thrombosis Research Laboratory, Roland von Känel, MD, General Internal Medicine, Inselspital, Bern University Hospital, Bern, Switzerland

3:30 - 3:45 pm BREAK

3:45 - 5:00 pm CONCURRENT SESSIONS

Invited Talk: Project Heart Beat! Changes of Body Composition and Plasma Lipid Levels during Sexual Maturation
Chair: John Ruiz, PhD
Presenter: Mona Eissa, MD
The learning objectives of this talk are to: 1) identify major cardiovascular disease risk factors and their origin at early age; 2) appreciate the importance of studying the natural history of the risk factors in order to identify the appropriate prevention and control measures; 3) learn about Project Heart Beat! design; 4) appreciate the changes of body composition, fat mass and lean body mass, that occur during puberty; 5) identify the differences in the pattern of changes between gender and ethnic /racial subgroups; and 6) appreciate the changes of serum lipids during puberty - these changes will be compared among gender and ethnic/racial subgroups.

Symposium 1253: Sleep and Health in Psychosomatic Medicine: Understanding Causal Mechanisms, Implementing Interventions
Chair: Martica Hall, PhD
Discussant: Daniel Taylor, PhD

Individual Abstract Number: 1264
INSOMNIA WITH OBJECTIVE SLEEP DISTURBANCES PREDICTS POOR DEPRESSION TREATMENT OUTCOME
Wendy M. Troxel, PhD, Psychiatry and Psychology, Michael Thase, MD, David J. Kupfer, MD, Charles F. Reynolds, MD, Ellen Frank, PhD, Daniel J. Buysse, MD, Psychiatry, University of Pittsburgh, Pittsburgh, PA

Individual Abstract Number: 1267
SLEEP DURATION AND ANTIBODY RESPONSE TO HEPATITIS B VACCINATION
Aric A. Prather, PhD, Center for Health and Community, University of California, San Francisco, San Francisco, CA, Martica Hall, PhD, Psychiatry, Psychology, Clinical and Translational S, University of Pittsburgh School of Medicine, Pittsburgh, PA, Jacqueline M. Fury, BS, Diana C. Ross, RN, BSN, Psychology, Anna L. Marsland, PhD, RN, Psychology and Nursing, University of Pittsburgh, Pittsburgh, PA
Individual Abstract Number: 1833
TREATMENT OF SLEEP DISTURBANCE CONFERS BENEFIT ON INFLAMMATORY OUTCOMES IN OLDER ADULTS WITH INSOMNIA
Michael R. Irwin, MD, Perry Nicassio, PhD, Sarosh Motival, PhD, Richard Olmstead, PhD, Elizabeth Breen, PhD, Psychiatry, Cousins Center for Psychoneuroimmunology, UCLA Semel, Los Angeles, CA

Symposium 1075: Interventions to Enhance Quality of Life and Health in Women Diagnosed with Breast Cancer: Main Effects, Mechanisms, and Moderators
Chair: Annette Stanton, PhD
Discussant: Paige Green McDonald, PhD

Individual Abstract Number: 1716
PROJECT CONNECT ONLINE: TRIAL OF A WEB-BASED PROGRAM TO CHRONICLE THE BREAST CANCER EXPERIENCE AND FACILITATE SOCIAL NETWORK COMMUNICATION
Annette L. Stanton, PhD, Psychology and Psychiatry/Biobehavioral Sciences, Elizabeth H. Thompson, M.A., Psychology, University of California, Los Angeles, Los Angeles, CA

Individual Abstract Number: 1705
RANDOMIZED CONTROLLED TRIAL OF IYENGAR YOGA FOR CANCER-RELATED FATIGUE: RESULTS OF A TARGETED INTERVENTION FOR FATIGUED BREAST CANCER SURVIVORS
Julienne E. Bower, PhD, Psychology and Psychiatry/Biobehavioral Sciences, Deborah Garet, M.P.H., Cousins Center for PNI, Patricia A. Ganz, MD, Medicine/Public Health, Beth Sternlieb, B.A., Pediatric Pain Program, Michael Irwin, MD, Richard Olmstead, PhD, Cousins Center for PNI, Gail A. Greendale, MD, Medicine/Geriatrics, University of California, Los Angeles, Los Angeles, CA

Individual Abstract Number: 1119
COGNITIVE BEHAVIORAL STRESS MANAGEMENT AND CONVERGING BIOBEHAVIORAL PROCESSES IN WOMEN UNDER TREATMENT FOR BREAST CANCER
Michael H. Antoni, PhD, Psychology, University of Miami, Coral Gables, Florida, Bonnie B. Blomberg, PhD, Microbiology/Immunology, Suzanne Lechner, PhD, Psychiatry, University of Miami School of Medicine, Miami, Florida, Charles S. Carver, PhD, Psychology, University of Miami, Coral Gables, Florida, Susan Lutgendorf, PhD, Psychology, University of Iowa, Iowa City, IA, Steven W. Cole, PhD, Medicine, UCLA, Los Angeles, California

Paper Session: Pain
Chair: Suzanne Segerstrom, PhD

Abstract 1635
DIFFERENTIAL COMORBIDITY OF MIGRAINE WITH SUBTYPES OF MOOD DISORDERS
Tuong-Vi Nguyen, MD, Psychiatry, McGill University, Montreal, QC, Canada, Sok S. Lee, BA, Medicine, Boston University School of Medicine, Boston, MA, Nancy C. Low, FRCP, Psychiatry, McGill University, Montreal, QC, Canada

Abstract 1211
IS REDUCTION IN PAIN CATASTROPHIZING A THERAPEUTIC MECHANISM SPECIFIC TO CBT FOR CHRONIC PAIN?
John W. Burns, PhD, Behavioral Sciences, Rush University Medical Center, Chicago, IL, Beverly Thorn, PhD, Melissa Day, MS, Psychology, University of Alabama, Tuscaloosa, Alabama

Abstract 1778
SENSITIVITY TO PHYSICAL AND EMOTIONAL PAIN IN WOMEN WITH ABUSE HISTORIES
Diana S. Fleischman, PhD, Psychiatry, University of North Carolina, Chapel Hill, Chapel Hill, NC, Jane Leserman, PhD, Susan Girdler, PHD, Department of Psychiatry, The University of North Carolina, Chapel Hill, Chapel Hill, NC

Additional Discussion
Time will be provided for additional discussion regarding the previous presentations.
240) Abstract 1241
EMOTIONAL AWARENESS COVARIATES WITH THEORY OF MIND ABILITY: IMPLICATIONS FOR THE CONCEPTUALIZATION AND MEASUREMENT OF ALEXITHYMIA
Richard D. Lane, MD, PhD, Psychiatry, University of Arizona, Tucson, AZ, Cynthia Stonnington, M.D., Psychiatry, Mayo Clinic, Scottsdale, Arizona, Cheryl Ritenbaugh, Ph.D., Family and Community Medicine, University of Arizona, Tucson, AZ

241) Abstract 1020
EXPRESSIVE WRITING AND PSYCHOLOGICAL WELL-BEING IN AMYOTROPHIC LATERAL SCLEROSIS (ALS)
Suzanne C. Segerstrom, PhD, Psychology, University of Kentucky, Lexington, KY, Alyssa J. Averill, PhD, Psychiatry and Behavioral Sciences, Medical University of South Carolina, Charleston, SC, Edward J. Kasarskis, MD, PhD, Neurology, University of Kentucky, Lexington, KY

242) Abstract 1322
THE EFFECTS OF INTERVENTIONS TO IMPROVE LEADERSHIP BEHAVIOR ON SUBORDINATE EMPLOYEE’S HEALTH AND LEVELS OF STRESS: A SYSTEMATIC LITERATURE REVIEW
Michael C. Gadinger, Dipl. Psych., Tatiana Yarmoliuk, Dipl. Soz., Walter Kromm, Joachim E. Fischer, Professor, Adrian Loerbroks, PhD, Public Health, University of Heidelberg, Mannheim Medical Faculty, Mannheim, Germany

243) Abstract 1242
PERCEIVED STRESS, SLEEP QUALITY, AND CORTISOL DYSREGULATION
Jennifer J. McGrath, PhD, MPH, Ourania Timotheatos, Forrest Rogers, Jessica Sykucki, Katrina Messina, Teresa McPeak, Stephanie Jette, Amy Bilodeau, Valerie D’Amour-Horvat, Cinthya Lucu, Michael Wilgus, Noel Nguyen, Katie Harbron, Jason De Lima, Andrea McCarthy, Valerie Aubrais, Rana Mohamed Salah Ahmed, Ata Hatami, Catherine Tardiff, Iulia Rusu, Melissa Dimitriadis, Stephanie Correia, Lana Karabachian, Emilie Gregoire Fiset, Reginald Beaubrun, Neressa Noel, Anne Aloi, Courtney Ostrega, Josie Macri, Jordan O’Byrne, Jennifer Novinsky, Marc-Olivier Hamel-Doyon, Leisha Seymour, Psychology, Concordia University, Montreal, QC, Canada, Alex J. Gavria, MA, Anastasia J. Arvanitidis, MA, Sabrina J. Giovannelli, B.A., Psychology, Concordia University, Montreal, Quebec, Canada

244) Abstract 1644
CHRONIC STRESS AND DIURNAL VARIATION IN CORTISOL
Kimberly A. Dienes, Ph.D., Psychology, Roosevelt University, Chicago, IL, Nicholas A. Hazel, Ph.D., Psychiatry, Northwestern University, Chicago, IL

245) Abstract 1351
PRELIMINARY VALIDATION OF THE SOCIAL NETWORK HEALTH BEHAVIOR SCALE (SNBHS): A MEASURE OF HEALTH BEHAVIOR EXPOSURES
Kelly A. Battle, B.A., Psychology, University of Kentucky, Lexington, KY, Kara E. Goyla, B.A., Behavioral and Community Health Sciences, Emily Heineman, Masters, Barbara Anderson, Ph.D., Thomas Kamarck, Ph.D., Psychology, University of Pittsburgh, Pittsburgh, PA

246) Abstract 1255
THE JOINT EFFECT OF CHILDHOOD PHYSICAL ABUSE AND IMPULSIVENESS ON TOBACCO USE
Janine D. Flory, PhD, Psychology, Queens College, Flushing, NY, Stephen B. Manuck, PhD, Psychology, University of Pittsburgh, Pittsburgh, PA

247) Abstract 1083
A DOUBLE WHAMMY: SMOKING AND FATIGUE INCREASE TNF-A LEVELS IN OLDER ADULTS
Jeanette M. Bennett, Ph.D., Ronald Glaser, Ph.D., Janice K. Kiecolt-Glaser, Ph.D., Institute for Behavioral Medicine Research, The Ohio State University, Columbus, OH

248) Abstract 1858
THE LEVEL OF CORTISOL INDUCED BY ACUTE STRESS IS RELATED TO DECISION MAKING INCLUDING RISK.
Yamakawa Kauri, Master, Psychology, Nagoya University, Nagoya, Japan, Matsunaga Masahiro, PhD, Neurology (Psychosomatic Medicine), Fujita Health University, Nagoya, Japan, Isowa Tokiko, PhD, Nursing, Mie University, Mie, Japan, Ohira Hideki, PhD, Psychology, Nagoya University, Nagoya, Japan
249) Abstract 1254
PRESERVED TRAIT STRESS REACTIVITY IN OLDER ADULTS PROMOTES MEMORY PERFORMANCE UNDER CHALLENGING CONDITIONS.
Kenneth P. Pitts, B.S., Angela Gutches, Ph.D., Jutta M. Wolf, PhD, Psychology, Brandeis University, Waltham, MA

250) Abstract 1708
NEURAL BASIS FOR THE META-COGNITIVE STRATEGY OF EMOTION REGULATION
Hiroki Murakami, Japan Foundation for Neuroscience and Mental Health, Kodaira, Tokyo, Japan, Yoshiya Moriguchi, PhD, Akiko Hida, PhD, Kazuo Mishima, PhD, Department of Psychophysiology, National Center of Neurology and Psychiatry, Kodaira, Tokyo, Japan

251) Abstract 1770
PERCEIVED SOCIAL SUPPORT IS USED BY EMPLOYED BUT NOT BY UNEMPLOYED INDIVIDUALS TO DETERMINE SUBJECTIVE SOCIAL STATUS.
Ashley Geiger, B.S., Psychology, Brandeis University, Waltham, MA, Clemens Kirschbaum, Ph.D., Psychology, Dresden University of Technology, Dresden, Germany, Jutta Wolf, Ph.D., Psychology, Brandeis University, Waltham, MA

252) Abstract 1728
SLEEP DURATION AND BODY MASS INDEX IN A DIVERSE GROUP OF ADOLESCENTS
Katherine D. Marczyk, BA, Daniel J. Taylor, PhD, Trent A. Petrie, PhD, Psychology, Scott B. Martin, PhD, Christy A. Greenleaf, PhD, Kinesiology, Health Promotion, & Recreation, John M. Ruiz, PhD, Camilo Ruggero, PhD, Psychology, University of North Texas, Denton, Texas

253) Abstract 1261
EXISTENTIAL MEANING IS ALTERED BY CANCER EXPERIENCE
Silla M. Consoli, PhD, Sylvie Pucheau, PhD, Najoua Oumima, PhD, Cecile You-Harada, PhD, Cecile Roygnan, PhD, CL-Psychiatry, European Georges Pompidou Hospital, Paris, Ile de France, France

254) Abstract 1391
EMOTIONAL EXPRESSION OF REPRESSORS AND THE HIGH-ANXIOUS WITH METASTATIC BREAST CANCER DURING THE TRIER SOCIAL STRESS TASK (TSST)
Janine Giese-Davis, Ph.D., Rie Tamagawa, Ph.D., Oncology, University of Calgary, Calgary, Alberta, Canada, Karen Aitree Piemme, B.F.A., Eric Neri, B.A., Psychiatry, Stanford University, Stanford, CA, Maya Yutsis, Ph.D., Traumatic Brain Injury, Mayo Clinic College of Medicine, Rochester, MN, Craig Barr Taylor, M.D., David Spiegel, M.D., Psychiatry, Stanford University, Stanford, CA

255) Abstract 1807
HAPPINESS IS ASSOCIATED WITH IMPROVED BIOLOGICAL OUTCOMES IN RENAL CELL CARCINOMA (RCC)
Sarah Prinsloo, PhD, Louis Pisters, MD, Shellie Scott, BS, Qi Wei, MS, Lorenzo Cohen, PhD, The University of Texas MD Anderson Cancer Center, Houston, TX, USA

256) Abstract 1160
PSYCHOSOCIAL FACTORS OF JAPANESE OBESE CANDIDATES FOR INTRAGASTRIC BALLOON PLACEMENT THERAPY
Shuji Inada, MD, Yoshiyuki Takimoto, PhD, Kazuhiro Yoshiuchi, PhD, Stress Sciences and Psychosomatic Medicine, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan, Fumihiko Hatao, PhD, Gastrointestinal Surgery, The University of Tokyo, Tokyo, Japan, Yusuke Hada, PhD, Sumie Okahata, PhD, Yoshimasa Yamauchi, PhD, Takashi Kadowaki, PhD, Diabetes and Metabolic Diseases, Akira Akabayashi, PhD, Stress Sciences and Psychosomatic Medicine, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan

257) Abstract 1438
CAFFEINE ABSTINENCE IMPROVES CHRONIC GLUCOSE CONTROL IN TYPE 2 DIABETIC COFFEE DRINKERS.
James D. Lane, Ph.D., Alex J. Lane, B.A., Psychiatry and Behavioral Sciences, Mark N. Feinglos, M.D., Department of Medicine, Richard S. Surwit, Ph.B., Psychiatry and Behavioral Sciences, Duke University Medical Center, Durham, NC

258) Abstract 1330
PROACTIVE REHABILITATION AND TELEPHONE INTERVENTION IN TYPE 2 DIABETES (PARTID TRIAL): METHODS AND RESULTS OF SCREENING FOR REHAB NEED IN DIABETICS WITH LOW SOCIO-ECONOMIC STATUS
Oskar Mittag, ScD, Andrea Doebler, Department of Quality Management and Social Medicine, University Medical Center of Freiburg, Freiburg, Germany, Hartmut Pollmann, MD, Niederrhein Clinic,
259) Abstract 1706
PRESENCE OF THE METABOLIC SYNDROME COVARIATES WITH BASAL GANGLIA MORPHOLOGY AND ANHEDONIA
Ikechukwu C. Onyewuenyi, BSc, Psychology, Israel Christie, PhD, Psychiatry, Kirk I. Erickson, PhD, Psychology, Lei K. Sheu, PhD, Psychiatry, Peter J. Gianaros, PhD, Psychiatry and Psychology, University of Pittsburgh, Pittsburgh, PA

260) Abstract 1653
IMPACT OF SPIRITUALITY ON MENTAL HEALTH OF RHEUMATOID ARTHRITIS PATIENTS: A SYSTEMATIC REVIEW.
Parikshit Deshmukh, MD, Psychiatry, University Hospital Case Medical Center, Cleveland, OH, Gaurav Kulkarni, MD, Psychiatry, University of Missouri, Columbia, MO, Jeanne Lackamp, MD, Psychiatry, University Hospital Case Medical Center, Cleveland, OH

261) Abstract 1650
ADULTS WITH PSYCHOSOMATIC SYMPTOMS IN COMMUNITY PARTIAL HOSPITALIZATION PROGRAM: CHARACTERISTICS AND PREDICTORS OF CLINICAL RESPONSE
Parikshit Deshmukh, MD, David Kemp, MD, MS, Psychiatry, University Hospital Case Medical Center, Cleveland, OH, Richard Hill, MD PhD, Psychiatry, Recovery Resources, Cleveland, OH, Stephen Ganoczy, PhD, Psychiatry, University Hospital Case Medical Center, Cleveland, OH

262) Abstract 1788
STRESS MANAGEMENT FOR BMT CAREGIVERS
Mark L. Laudenslager, PhD, Psychiatry, University of Colorado Denver, Denver, Colorado, Janet Spradley, LSW, Psychosocial Oncology, Presbyterian/St. Luke’s Medical Center, Denver, Colorado, Rachel Grzywa, BS, Crystal L. Natvig, BS, Psychiatry, University of Colorado Denver, Denver, Colorado, Susan M. Mikulich-Gilbertson, PhD, Psychiatry, University of Colorado Denver, Aurora, Colorado, Kristin Kibbourn, PhD, Psychology, University of Colorado Denver, Denver, Colorado, Teri Simioneau, PhD, Psychosocial Oncology, Presbyterian/St. Luke’s Medical Center, Denver, Colorado

263) Abstract 1607
EXCEPTIONS TO THE SES GRADIENT: RACIAL/ETHNIC DIFFERENCES IN SOCIOECONOMIC EFFECTS ON SCHOOL ABSENCES AMONG ADOLESCENTS
Mariana Garza, BA, John M. Ruiz, Ph.D., Psychology, Scott Martin, Ph.D., Christy Greenleaf, Ph.D., Kinesiology, Daniel Taylor, Ph.D., Trent Petrie, Ph.D., Psychology, University of North Texas, Denton, Texas

264) Abstract 1324
STRESSFUL ANCIENT EGYPT? ASSESSING CORTISOL CONCENTRATIONS IN A MUMMY’S HAIR
Adrian Loerbroks, PhD, Cluster of Excellence Asia and Europe, Heidelberg University, Heidelberg, Germany, Friedhelm Hoffmann, PhD, Egyptological Institute, Ludwig Maximilians University, Munich, Germany, Alfred Grimm, PhD, Egyptian Museum Munich, Munich, Germany, Clemens Kirschbaum, PhD, Institute of Biological Psychology, Dresden University of Technology, Dresden, Germany

265) Abstract 1446
MINDFULNESS AND PSYCHOLOGICAL ADJUSTMENT AMONG PARKINSON’S DISEASE PATIENTS AND THEIR PARTNERS
Samuel J. Dreeben, B.A., Sandra E. Sephton, Ph.D., Megan E. Jablonski, M.S., Psychological and Brain Sciences, University of Louisville, Louisville, Kentucky, Irene Litvan, M.D., Neurology, University of Louisville School of Medicine, Louisville, KY, David J. Houghton, M.D., Neurology, University of Louisville School of Medicine, Louisville, Kentucky, Janine Giese-Davis, Ph.D., Oncology, University of Calgary Faculty of Medicine, Calgary, Alberta, Canada, Estate M. Sokhadze, Ph.D., Psychiatry and Behavioral Sciences, Rafael Fernandez-Botran, Ph.D., Pathology and Laboratory Medicine, University of Louisville School of Medicine, Louisville, Kentucky, Emily A. Elsmann, M.S., Scott M. Hanneman, B.S., Paul Salmon, Ph.D., Psychological and Brain Sciences, University of Louisville, Louisville, Kentucky

266) Abstract 1270
EFFECTS OF ACCULTURATION ON OVERWEIGHT IN CANADIAN IMMIGRANT YOUTH
Elizabeth C. Quon, M.A., Jennifer J. McGrath, Ph.D., Psychology, Concordia University, Montreal, Quebec, Canada
267) Abstract 1811
POSITIVE BENEFIT FINDING IS ASSOCIATED WITH SALIVARY CORTISOL AWAKENING RESPONSE IN CAREGIVERS OF HOSPICE PATIENTS
Shannon L. Madore, BA, Allison Costenaro, MA, Psychology, Crystal L. Natvig, BS, Psychiatry, University of Colorado Denver, Denver, CO, Tarah A. Keen, MA, General Internal Medicine, University of Colorado Denver, Aurora, CO, Derek Anderson, MA, Psychology, The Ohio State University, Columbus, Ohio, Mark L. Laudenslager, PhD, Psychiatry, University of Colorado Denver, Denver, CO, Jean S. Kutner, MD, General Internal Medicine, University of Colorado Denver, Aurora, CO, Kristin M. Kilbourn, PhD, Psychology, University of Colorado Denver, Denver, CO

268) Abstract 1062
MODULATION OF NEURAL, CARDIOVASCULAR, AND IMMUNE REACTIVITY TO COGNITIVE CHALLENGE BY CHRONIC JOB STRESS
Hideki Ohira, PhD, Psychology, Nagoya University, Nagoya, Aichi, Japan, Masahiro Matsunaga, PhD, Psychosomatic Medicine, Fujita Health University, Nagoya, Aichi, Japan, Kenta Kimura, PhD, Hiroki Murakami, MA, Takahiro Osumi, MA, Psychology, Nagoya University, Nagoya, Aichi, Japan

269) Abstract 1698
EATING BEHAVIOR IN MIDDLE-AGED WOMEN
Suzana Drobnjak, M.S., Ulrike Ehlert, Prof., Department of Psychology, University of Zurich, Zuerich, Switzerland

270) Abstract 1331
NEGATIVE AFFECT AND VASOMOTOR SYMPTOMS IN THE DAILY HORMONE STUDY
Carolyn Gibson, MPH, Psychology, Rebecca Thurston, PhD, Joyce Bromberger, PhD, Epidemiology, Psychiatry, Thomas Kamarck, PhD, Psychology, Psychiatry, Karen Matthews, PhD, Psychiatry, Epidemiology, Psychology, University of Pittsburgh, Pittsburgh, PA

271) Abstract 1399
SHORT-TERM COMMITMENT IS ASSOCIATED WITH BETTER MENTAL HEALTH AND LESS STRESS IN YOUNG ADULTS
Nicole Piccirillo, Stephen Martinkovich, Aubrey Murano, Sarah Conklin, PhD, Neuroscience and Psychology, Allegheny College, Meadville, PA

272) Abstract 1747
FEAR-RELATED PREDICTORS OF VASOVAGAL SYMPTOMS DURING BLOOD DONATION: IT’S IN THE BLOOD.
Philippe T. Gilchrist, M.A., Crystal D. Holly, B.Sc., Blaine Ditto, Ph.D., Psychology, McGill University, Montreal, Quebec, Canada

273) Abstract 1606
PSYCHOSOCIAL PREDICTORS OF HEALTH-RELATED QUALITY OF LIFE AFTER SOLID ORGAN TRANSPLANTATION: A REVIEW
Alexander L. Patterson, PsyD, Department of Psychology, Portland VA Medical Center, Portland, OR

274) Abstract 1337
QUALITY IN COLONOSCOPY SERVICES FROM THE PATIENT PERSPECTIVE: IMPORTANCE OF PSYCHOSOCIAL FACTORS
Maida J. Sewitch, PhD, Medicine, McGill University Health Center, Montreal, Quebec, Canada, Catherine Dubé, MSc, MD, FRCPC, Medicine and Community Health Sciences, University of Calgary, Calgary, Alberta, Canada, Alan Barkun, MD, CM, FACP, MS, Medicine, McGill University Health Center, Montreal, Quebec, Canada, Robert Hilsden, MD PhD FRCPC, Medicine and Community Health Sciences, University of Calgary, Calgary, Alberta, Canada, David Armstrong, MA, MB BCHir, FRCP(UK), Medicine, McMaster University, Hamilton, Ontario, Canada

275) Abstract 1619
SELF-EFFICACY AS A MEDIATOR BETWEEN ACTIVE COPING AND QUALITY OF LIFE
Thomas DeSena, MA, James Miller, B.S., Mark Vosvick, PhD, Clinical Health Psychology, University of North Texas, Denton, TX

276) Abstract 1378
SOCIAL SUPPORT AND MINDFULNESS SKILLS: CORRELATES OF DEPRESSION IN A LESBIAN, GAY, AND BISEXUAL SAMPLE
Sarah H. Fritz, Bachelor of Arts, Mark A. Vosvick, Ph.D., Psychology, University of North Texas, Denton, TX
277) Abstract 1795
DENIAL AS A MODERATOR OF DAILY HASSLES AND DISTRESS
Brooke M. Gomez, BA in progress, Mark A. Vosvick, PhD, Psychology, University of North Texas, Denton, Texas

278) Abstract 1848
CARDIOVASCULAR RESPONSES TO LABORATORY STRESS: THE INFLUENCE OF RACE AND ANGER EXPRESSION
Cynthia M. Dolezsar, MA, Sydney B. Miller, PhD, Psychology, Concordia University, Montreal, Qc, Canada

279) Abstract 1726
COGNITIVE FUNCTIONING DECLINES IN PREHYPERTENSIVE YOUNG ADULTS THROUGHOUT A NIGHT OF SLEEP DEPRIVATION
Hannah Peach, James A. McCubbin, PhD, June J. Pilcher, PhD, Psychology, Clemson University, Clemson, SC

280) Abstract 1092
PERCEIVED STRESS IS ADVERSELY RELATED TO SLEEP QUALITY IN ADULTS
Denise C. Jarrin, MA, Jennifer J. McGrath, Ph.D., M.P.H., Psychology, Concordia University, Montreal, Quebec, Canada

281) Abstract 1150
THE ROLE OF PERSONALITY DIMENSIONS IN SICK LEAVE - THE DOWNSIDE OF NOVELTY SEEKING AND COOPERATIVENESS
Rupert Conrad, MD, Psychosomatic Medicine and Psychotherapy, University of Bonn, Bonn, Germany

282) Abstract 1176
THE EFFECT OF RELATIONSHIP QUALITY AND WORKLOAD ON BLOOD PRESSURE AND STRESS LEVELS
Julianne Holt-Lunstad, PhD, Bryan Jenson, BS, Psychology, Brigham Young University, Provo, Utah, Kathleen Light, PhD, Anesthesiology, University of Utah, Salt Lake City, UT, Tracy Brown, BS, Sarah LeMonte, BS, Molly Mitchell, BS, Psychology, Brigham Young University, Provo, UT

283) Abstract 1127
COGNITIVE COMPLAINTS IN SUBJECTS WITH UNEXPLAINED FATIGUE EXPLAINED BY MENTAL EFFORT
Tamara E. Lacourt, MSc, Jan H. Houtveen, PhD, Lorenz J. van Doornen, PhD, Clinical and Health Psychology, Utrecht University, Utrecht, Netherlands, Cobi J. Heijnen, PhD, Laboratory for Neuroimmunology, University Medical Center Utrecht, Utrecht, The Netherlands

284) Abstract 1155
TESTING CAUSALITY IN THE ASSOCIATION BETWEEN REGULAR EXERCISE AND PSYCHOLOGICAL WELLBEING IN ADOLESCENTS
Eco J. de Geus, PhD, Niels van der Aa, PhD, Marleen de Moor, PhD, Dorret I. Boomsma, PhD, Meike Bartels, PhD, Biological Psychology, VU University, Amsterdam, Netherlands

285) Abstract 1165
SEVERITY OF DEPRESSION AS THE LEADING DETERMINANT OF THE QUALITY OF LIFE AMONG PATIENTS WITH MULTIPLE SCLEROSIS IN NORTH WEST OF IRAN
Mohammad Z. Pezeshki, M.D., Mehdi Panahali, M.D., Community Medicine, Tabriz University of Medical Sciences, Tabriz, East Azarbijan, Iran

286) Abstract 1769
THE DIFFICULTIES WITH EATING DISORDER PATIENTS IN EARLY STAGE OF THE TREATMENT
Hitomi Kobayashi, Master, Human Sciences, Waseda University, Tokorozawa, Saitama, Japan, Toshio Ishikawa, MD/Ph.D, Psychosomatic medicine, International Medical Center of Japan, Ichikawa, Chiba, Japan, Shinobu Nomura, MD/Ph.D, Faculty of Human Sciences, Waseda University, Tokorozawa, Saitama, Japan

287) Abstract 1283
CAN THE POSITIVE EFFECT OF ELECTRO-CONVULSIVE TREATMENT ON MOOD IN MAJOR DEPRESSIVE DISORDER BE CLASSICALLY CONDITIONED?
Marzio E. Sabbioni, MD, Psychosomatic and Psychotherapeutic Medicine, Lindenhofspital, Bern, Bern, Switzerland
288) Abstract 1317
TITERS OF CIRCULATING ANTIBODIES TO THE HEAT SHOCK PROTEIN 60 (ANTI-HSP60) INCREASE IN WOMEN IN RESPONSE TO STRESSFUL LIFE SITUATIONS
Jose R. Pena, MD PhD, Internal Medicine, Carabobo University, Venezuela, Valencia, Carabobo, Venezuela, Maria A. Lopez, Psy.D, Psychology, Unidad de Psicotrauma, Valencia, Carabobo, Venezuela, Sabrina Islam, MD, Babette Weskler, MD, Division of Hematology-Medical Oncology, Paul Szabo, PhD, Neurology, Weill Cornell Medical College, New York, NY, Karla Molina, MS, Clinical Biochemistry, Los Andes University, Merida, Merida, Venezuela, Cirilo Yelamo, MD, Anatomy, Raul Gallegos University, San Juan de Los Morros, Guarico, Venezuela, Jose M. Poveda, MD PhD, Psychiatry, Universidad Autonoma de Madrid, Madrid, Madrid, España

289) Abstract 1074
HEART RATE VARIABILITY IN ANOREXIA NERVOSA AND IN THE IRRITABLE BOWEL SYNDROME
Nazar Mazurak, MD, Internal Medicine, Ivano-Frankivsk National Medical University, Ivano-Frankivsk, Ukraine, Paul Enck, PhD, Psychosomatic Medicine and Psychotherapy, University Clinic, Tuebingen, Germany, Eric R. Muth, PhD, Department of Psychology, Clemson University, Clemson, Steffen Haeffner, MD, Martin Teufel, MD, Stephan Zipfel, MD, Psychosomatic Medicine and Psychotherapy, University Clinic, Tuebingen, Germany

290) Abstract 1381
THE EFFECTS OF BODY IMAGE ON MATERNAL DEPRESSION AND CORTISOL LEVELS DURING PREGNANCY
Nina A. Smallwood, B.A., Guido G. Urizar, Ph.D., Psychology, California State University, Long Beach, Long Beach, CA, Ilona S. Yim, Ph.D., Psychology and Social Behavior, University of California, Irvine, Irvine, CA

291) Abstract 1060
THE LONGITUDINAL RELATIONSHIP BETWEEN ADOLESCENT OBESITY AND DEPRESSIVE SYMPTOMS: GENDER AND RACE/ETHNIC DIFFERENCES
Frank C. Bandiera, MPH, Epidemiology and Public Health, University of Miami, Miami, FL, Sharon L. Christ, PhD, Child Development and Family Studies, Purdue University, West Lafayette, Indiana, Elizabeth Goodman, MD, MassGeneral Hospital for Children, Massachusetts General Hospital for Children, Boston, MA, David J. Lee, PhD, Shi Huang, PhD, Lora E. Fleming, MD PhD, Epidemiology and Public Health, University of Miami, Miami, FL

292) Abstract 1677
DEPRESSION STATUS AND ITS EFFECTS ON CORTISOL PATTERNS DURING PREGNANCY
Guido G. Urizar Jr., PhD, California State University, Long Beach, CA, Ilona S. Yim, PhD, University of California, Irvine, CA

293) Abstract 1142
DOES THE DRIVE FOR PERFECTION HURT? CHRONIC PAIN AND PERFECTIONISM IN A COMMUNITY SAMPLE
Sarah E. Collins, Master of Science, Health Psychology, Pacific University, Portland, OR

294) Abstract 1004
LINGUISTIC MARKERS OF EMOTION REGULATION AND THEIR RELATION TO CARDIOVASCULAR REACTIVITY
Joan K. Monin, PhD, Richard Schulz, PhD, Thomas B. Cook, MPH, University Center for Social and Urban Research, University of Pittsburgh, Pittsburgh, PA

295) Abstract 1750
ACUTE URINARY RETENTION PRECIPITATED BY BUPRENORPHINE/NALOXONE
Katherine T. Walla, MD, Adekola O. Alao, MD, Psychiatry, Upstate Medical University, State University of NY, Syracuse, NY

296) Abstract 1742
PROTECTIVE EFFECTS OF OPTIMISM ON BASAL STRESS LEVELS AND STRESS REACTIVITY.
Yvo Meevissen, MSc, Madelon Peters, Professor, Clinical Psychological Science, Faculty of Psychology and Neuroscience, Maastricht, Netherlands

297) Abstract 1026
PARENT PERCEPTIONS THAT PAIN IS A THREAT PREDICT SOLICITOUS RESPONSES IN CHILD FUNCTIONAL ABDOMINAL PAIN (FAP)
Kimberly S. Swanson, Ph.D., Shelby Langer, Ph.D., School of Social Work, Joan Romano, Ph.D., Department of Psychiatry, Rona Levy, Ph.D., School of Social Work, University of Washington, Seattle, WA
298) Abstract 1123
PSYCHOLOGICAL STRESS AND ORAL HEALTH AMONG PREGNANT WOMEN OF LOW SOCIOECONOMIC STATUS
Lisa M. Christian, PhD, Psychiatry, The Ohio State University, Columbus, Ohio, Jay D. Iams, MD, Obstetrics and Gynecology, The Ohio State University Medical Center, Columbus, Ohio, Kyle Porter, MAS, Center for Biostatistics, Binnaz Leblebicioglu, College of Dentistry, The Ohio State University, Columbus, OH

299) Abstract 1131
PARTNERSHIP OR RIVALRY? - PSYCHOLOGICAL IMPLICATIONS OF THE RELATIONSHIP BETWEEN COUPLE AND PHYSICIAN 6 YEARS AFTER SUCCESSFUL DONOR INSEMINATION
Rupert Conrad, MD, Psychosomatic Medicine and Psychotherapy, University of Bonn, Bonn, Germany, Guntram Schilling, MD, Psychosomatic Medicine and Psychotherapy, Center of Rehabilitation Am Sprudelhof Bad Nauheim, Bad Nauheim, Germany

300) Abstract 1757
CHRONIC INFLAMMATION IS ASSOCIATED WITH LOWER PROACTIVE SEXUAL MOTIVATION IN U.S. RESIDENTS, AGE 57-85
Elissa H. Patterson, PhD, Psychiatry, Boston University School of Medicine, Boston, MA, Martha K. McClintock, PhD, Psychology, University of Chicago, Chicago, IL

301) Abstract 1212
STABILITY OF SELF-ESTEEM AND PHYSICAL SELF: EXAMINING THE ROLE OF CHRONIC OBSTRUCTIVE PULMONARY DISEASE
Grégory Ninot, Pr, Psychology, Medicine, University of Montpellier, Montpellier, France

302) Abstract 1840
IMPACT OF CIGARETTE SMOKING, ANXIETY AND DEPRESSION ON ASTHMA CONTROL
Karine Ouëlet, BA, Maxine Boudreau, BA, Annik Plourde, BA, Simon L. Bacon, PhD, Kim L. Lavoie, PhD, MDMC/Psychology/Exercice science, Hopital du Sacré-Coeur de Montréal/UQAM/Concordia, Montréal, Québec, Canada

303) Abstract 1139
SEX DIFFERENCES IN INFLAMMATION, DISTRESS, AND DISEASE OUTCOMES AMONG COPD PATIENTS PARTICIPATING IN PULMONARY EXERCISE REHABILITATION
Andrea K. Busby, Ph.D., Medical Psychology, Boston VA Healthcare System, Boston, MA, Charles F. Emery, Ph.D., Psychology, The Ohio State University, Columbus, OH

304) Abstract 1738
THE EFFECT OF DEPRESSIVE DISORDERS ON CHANGES IN BODY MASS INDEX IN ADULT PATIENTS WITH ASTHMA
Ariane Jacob, Bsc, Simon L. Bacon, Ph.D, Maxine Boudreau, BA, Kim L. Lavoie, Ph.D, MBMC/Psychology/Exercice Science, Hopital du Sacré-Coeur de Montréal/UQAM/Concordia, Montréal, Québec, Canada

305) Abstract 1775
A NOVEL INTERVENTIONAL STRATEGY TO IMPROVE STROKE AWARENESS: THE HIP HOP STROKE PROJECT

306) Abstract 1367
MIGRAINE WITH AURA IN PMDD WOMEN: ASSOCIATION WITH HISTORY OF SEXUAL ABUSE.
Adomas Bunevicius, MD, Erin Richardson, BA, Jane Leserman, PhD, Susan Girdler, PhD, Department of Psychiatry, University of North Carolina at Chapel Hill, Chapel Hill, NC

307) Abstract 1071
THE INTERACTION OF ANXIETY AND DEPRESSION ON ENDOTHELIAL FUNCTION IN CARDIAC PATIENTS
Darren A. Mercer, Bachelor of Science, Psychology, McGill University, Montreal, Quebec, Canada, Kim L. Lavoie, PhD, Psychology, University of Quebec at Montreal, Montreal, QC, Canada, Blaine Ditto, PhD, Psychology, McGill University, Montreal, QC, Canada, André Arsenault, MD, Nuclear Medicine, Montreal Heart Institute, Montreal, QC, Canada, Simon L. Bacon, PhD, Exercise Science, Concordia University, Montreal, QC, Canada
308) Abstract 1829
MEASURING SYMPTOM BURDEN IN VALVE SURGERY PATIENTS
Cshantara Woolfolk, BS, Sari D. Holmes, PhD, Lisa M. Martin, PhD, Linda L. Henry, PhD, Sharon L. Hunt, MBA, Niv Ad, MD, Cardiac Surgery Research, Inova Heart and Vascular Institute, Falls Church, VA

309) Abstract 1789
PSYCHOSOCIAL EXPERIENCE AND IMPACT OF RECOVERY AFTER CARDIAC SURGERY: PRELIMINARY ANALYSES
Sari D. Holmes, PhD, Lisa M. Martin, PhD, Linda L. Henry, PhD, Sharon L. Hunt, MBA, Cshantara Woolfolk, BS, Niv Ad, MD, Cardiac Surgery Research, Inova Heart and Vascular Institute, Falls Church, VA

310) Abstract 1089
MENTAL STRESS AND EXERCISE STRESS LEAD TO DIFFERENT ECHOCARDIOGRAPHY-DERIVED LEFT VENTRICULAR FILLING PRESSURE ALTERATIONS IN CORONARY HEART DISEASE PATIENTS
Litong Qi, MD, Eric J. Velazquez, MD, Cardiology, Carolyn M. Martisberger, PhD, Biological Psychiatry, Zainab Samad, MD, Joseph Rogers, MD, Cardiology, Ranga Krishnan, MD, Psychiatry, Redford Williams, MD, Behavioral Psychiatry, Christopher M. O'Connor, MD, Cardiology, Wei Jiang, MD, Biological Psychiatry and Medicine, Duke University, Durham, NC

311) Abstract 1137
TYPE D PERSONALITY IS NOT ASSOCIATED WITH CORONARY HEART DISEASE RISK FACTORS IN RETIREMENT-AGE ADULTS
Noel C. Larson, B.A., Steven D. Barger, PhD, Sumner J. Sydeman, PhD, Psychology, Northern Arizona University, Flagstaff, AZ

312) Abstract 1662
INDIVIDUAL AND AREA SOCIOECONOMIC STATUS AND INFLAMMATORY MARKERS OF CARDIOVASCULAR DISEASE RISK IN MEXICAN AMERICAN WOMEN
Karla Espinosa de los Monteros, MS, Psychology, SSDU/UCSD JDP in Clinical Psychology, San Diego, CA, Linda C. Gallo, PhD, Addie L. Fortmann, MS, Smriti Shivpuri, MS, Psychology, sdsU/UCSD JDP in Clinical Psychology, San Diego, CA, Paul J. Mills, PhD, Psychiatry, Elizabeth Barrett-Connor, MD, Family and Preventive Medicine, University of California, San Diego, La Jolla, CA, Karen A. Matthews, PhD, Psychiatry, University of Pittsburgh School of Medicine, Pittsburgh, PA

313) Abstract 1171
DEPRESSIVE SYMPTOMS PREDICT ADIPONECTIN LEVELS OVER FIVE YEARS IN WOMEN.
Susan A. Everson-Rose, PhD, Cari J. Clark, ScD, Medicine, Hongfei Guo, PhD, Biostatistics & CTSI, Qi Wang, MS, CTSI, University of Minnesota, Minneapolis, MN, Peter Mancuso, PhD, Jared Goldberg, BS, Environmental Health Sciences, University of Michigan, Ann Arbor, MI, Joyce T. Bramberger, PhD, Epidemiology & Psychiatry, University of Pittsburgh, Pittsburgh, PA, Howard M. Kravitz, PhD, Psychiatry & Preventive Medicine, Rush University Medical Center, Chicago, IL, MaryFran Sowers, PhD, Epidemiology, University of Michigan, Ann Arbor, MI

314) Abstract 1703
RELATIONSHIPS BETWEEN PHYSICAL ACTIVITY, BODY FAT AND HEART RATE VARIABILITY WITH INTERLEUKIN-6
Sarosh J. Motivala, Ph.D., Cousins Center for Psychoneuroimmunology, UCLA Semel Institute, Los Angeles, CA, Leah FitzGerald, Ph.D., UCLA School of Nursing, Los Angeles, CA

315) Abstract 1434
NEIGHBORHOOD STRESS AND HYPERTENSION RISK: DOES PERCEIVED SUBORDINATION EXPLAIN THE LINK?
Gavin J. Elder, Master fo Science, Mariam Parekh, BA, Jessica Schoolman, BA, Craig K. Ewart, Ph.D, Psychology, Syracuse University, Syracuse, NY

316) Abstract 1108
INFLUENCE OF HOSTILITY ON ACTIVITY-RELATED DIURNAL VARIATIONS IN BLOOD PRESSURE
Eimear M. Lee, MSc, Brian M. Hughes, PhD, Centre for Research on Occupational and Life Stress, National University of Ireland, Galway, Galway, Ireland

317) Abstract 1162
SOCIALLY RELEVANT TRAITS ARE MORE PREDICTIVE OF CARDIOVASCULAR STRESS RESPONSES THAN PERCEIVED SOCIAL SUPPORT
Ann-Marie Creaven, B.A. (Psych), Centre for Research, NUI Galway, Galway, Galway, Ireland, Brian M. Hughes, PhD, Centre for Research on Occupational Life Stress, National University Institutional Galway, Galway, Ireland
318) Abstract 1095
CHRONIC POSTTRAUMATIC STRESS AND ITS PREDICTORS IN PATIENTS WITH AN IMPLANTABLE CARDIOVERTER DEFIBRILLATOR: FINDINGS FROM THE THE LIVING WITH AN IMPLANTABLE CARDIOVERTER DEFIBRILLATOR (LICAD) PROSPECTIVE STUDY
Roland von Känel, MD, General Internal Medicine, University Hospital, Bern, Switzerland, Jens Baumert, PhD, Epidemiology, Helmholtz Zentrum, Munich, Germany, Christoph Kolb, MD, Electrophysiology, Deutsches Herzzentrum, München, Germany, En-Young N. Cho, MD, General Internal Medicine, University Hospital, Bern, Switzerland, Karl-Heinz Ladwig, MD, PhD, Epidemiology, Helmholtz Zentrum, Munich, Germany

319) Abstract 1021
RESILIENCE ENHANCEMENT: A PILOT STUDY IN PATIENTS WITH AN IMPLANTABLE CARDIOVERTER DEFIBRILLATOR
Linda C. Vlay, DNP, NPP, Stony Brook University, Stony Brook, New York, Corrine Y. Jurgens, PhD RN ANP-BC FAHA, School of Nursing, Stony Brook University, Stony Brook, NY

320) Abstract 1395
VULNERABILITY AND PROTECTIVE FACTORS OF NON-RESILIENCE IN A SAMPLE OF PORTUGUESE PATIENTS WITH HEART FAILURE
Margarida Fontelongo Bento, MD, Internal Medicine, H.São Francisco Xavier, Faculty Ciências Médicas, UN, Lisbon, Portugal, Cândida Fonseca, PhD, Internal Medicine, H.São Francisco Xavier, Faculty Ciência Médicas, UN, Lisbon, Portugal, Inês Araújo, MD, Internal Medicine, H.São Francisco Xavier, Faculty Ciências Médicas, UN, Lisbon, Portugal, Filipa Marques, MD, Internal Medicine, H.São Francisco Xavier, Faculty Ciências Médicas,UN., Lisbon, Portugal, Ana Leitão, MD, Internal Medicine, H.São Francisco Xavier, Faculty Ciências médicas, UN, Lisbon, Portugal, António Mendes Pedro, PhD, Psychology, University Autonoma, Lisbon, Portugal, Ricardo Gusmão, PhD, Psychiatry, Faculty of Ciências Médicas, UN, Lisbon, Portugal, Paul J. Mills, PhD, Psychiatry, University of California, San Diego, CA, William Gerin, PhD, Biobehavioral Health, University of Pennsylvania, Pennsylvania, Fátima Ceia, PhD, Internal Medicine, H.São Francisco Xavier, Faculty Ciências Médicas, UN, Lisbon, Portugal

321) Abstract 1808
INFLUENCE OF SPACEFLIGHT ON PLASMA VOLUME AND HEMOCONCENTRATION OF IMMUNE CELLS AND SOLUBLE ADHESION MARKERS
Stephen M. Patterson, Ph.D., Psychology, Ohio University, Athens, Ohio, Michael G. Ziegler, Ph.D., Psychiatry and Medicine, University of California, San Diego, San Diego, California, Anthony W. Austin, M.A., Psychology, Ohio University, Athens, Ohio, Paul J. Mills, Ph.D., Psychiatry and Medicine, University of California, San Diego, San Diego, California

322) Abstract 1228
LIFESTYLE INTERVENTIONS IMPROVE HEART RATE RECOVERY IN HYPERTENSION
Kate M. Edwards, PhD, Kathleen L. Wilson, MS, Julie Sadja, MS, Joel E. Dimsdale, M.D, Psychiatry, Michael G. Ziegler, M.D, Medicine, Paul J. Mills, PhD, Psychiatry, University of California. San Diego, La Jolla, CA

BANQUET
Join with friends and colleagues for a special evening of food and fun! You'll be entertained by one of San Antonio's finest party bands...Oh So Good! Bring your dancing shoes and get ready to boogie!
Seeking Biobehavioral Scientists to Join the National Cancer Institute

The Basic and Biobehavioral Research Branch (BBRB) in the Behavioral Research Program, Division of Cancer Control and Population Sciences of the National Cancer Institute (NCI) is recruiting dynamic and experienced biobehavioral scientists with expertise in cancer biology, clinical oncology, or cancer relevant translational research. The NCI, part of the National Institutes of Health (NIH), U.S. Department of Health and Human Services (DHHS), is the primary Federal agency responsible for cancer research in the United States.

Biobehavioral scientists at the NCI enjoy a scientifically energizing and collegial environment with ample opportunities to:

- Develop research and funding initiatives;
- Cultivate a diverse portfolio of grant-supported research;
- Lead and participate in transdisciplinary research collaborations among public, private, and academic stakeholders; and,
- Develop national and international scientific programming (e.g., symposia, special journal issues and supplements, conferences, and workshops).

Biobehavioral scientists are encouraged to engage in collaborative research, present findings at scientific meetings, and publish results in peer-reviewed journals. Substantial resources are available for secondary data analyses of national and state survey data, scholarly review of existing literatures, and the development of new conceptual perspectives.

BBRB is recruiting at the junior and senior academic levels. Candidates should have doctoral level training (Ph.D., Sc.D., M.D. or equivalent) and substantial research experience relevant to the study of fundamental psychological processes, interactions of those processes with biological factors, and their effect on cancer risk and outcomes. Candidates with strong writing, communication and interpersonal skills are sought.

The work site location is the Washington, D.C. suburb of Rockville, Maryland. Salaries will be competitive and commensurate with experience; excellent benefits will be provided; a relocation package will be negotiable. Salaries will cover all 12 months of the calendar year. All applicants will receive consideration without regard to ethnicity, gender, national origin, age, religion, disability, or sexual orientation. DHHS, NIH and NCI are Equal Opportunity Employers.

To express your interest, send the following documents by electronic mail to Ms. Donna Hopkins at hopkinsd@mail.nih.gov:

- Cover letter describing your expertise and interest in directing a biobehavioral research program at the NCI;
- Curriculum vitae, including professional references; and,
- One first-authored journal publication relevant to the expertise sought in this announcement.

For additional information about opportunities to influence the trajectory of cancer control research and the development of a national research agenda in biobehavioral science at the National Cancer Institute, contact:

Paige Green McDonald, PhD, MPH
Chief, Basic and Biobehavioral Research Branch
Phone: (301) 435-5037; Email: pm252v@nih.gov

To learn more about BBRB, please visit: http://cancercontrol.cancer.gov/bbrb/. For additional qualifications, evaluation criteria, and application instructions, please visit http://www.jobs.nih.gov/hsa/ or contact Ms. Lauren Tedesco at 301-594-8208

1 Formal position announcement will be posted on www.usajobs.gov.
MEMBERSHIP INFORMATION

The mission of the American Psychosomatic Society is to promote and advance the scientific understanding and multidisciplinary integration of biological, psychological, behavioral and social factors in human health and disease, and to foster the dissemination and application of this understanding in education and health care.

Membership in the Society includes specialists from all medical and health-related disciplines, the behavioral sciences and social sciences. There are four categories of membership: Regular, Associate, Emeritus and Corresponding. A short membership application can be found on the APS website (www.psychosomatic.org). Completed applications should be submitted to the APS office, which includes one sponsoring signature, a curriculum vitae and prepayment of dues. If applying for Associate membership, we request a letter from department chair or faculty advisor testifying to student’s interest in psychosomatic medicine and to student status.

Some of the benefits of being an APS member include:
- Print and online copies of the APS journal, Psychosomatic Medicine
- Reduced registration fees for the APS Annual Meeting.
- Networking opportunities with other professionals in the field.
- Newsletter (3 times a year) and e-newsletter communications (3 times a year).
- Dynamic national Council comprised of leaders in the field who have set an aggressive agenda for our future.
- Opportunity to participate in committees.
- Herbert Weiner Early Career Award for contributions to psychosomatic medicine.
- APS Awards programs for students and trainees enrolled in medical, graduate or undergraduate school, or in residency, internship, or post-doctoral fellowship programs, and from developing countries.
- Opportunity to organize, and receive funding for, a Psychosomatic Medicine Interest Group.
- On-line Membership Directory of professionals throughout the world.

For further information or to obtain a membership application, please contact:
APS ~ 6728 Old McLean Village Drive ~ McLean, VA, 22101 USA ~ Phone: (703) 556-9222 ~ Fax: (703) 556-8729

APS Past Presidents

1943 - 44: Tracy J. Putnam, MD
1944 - 45: Winfred Overholser
1945 - 46: Roy G. Hoskins, MD
1946 - 47: Edward Weiss, MD
1947 - 48: Franz Alexander, MD
1948 - 49: Leon J. Saul, MD
1949 - 50: Eugene B. Ferris, MD
1950 - 51: Milton J.E. Senn, MD
1951 - 52: Roy R. Grinker, MD
1952 - 53: Sydney G. Margolin, MD
1953 - 54: George L. Engel, MD
1954 - 55: Lawrence S. Kubie, MD
1955 - 56: Stanley Cobb, MD
1956 - 57: I. Arthur Mirsky, MD
1957 - 58: Theodore Lidz, MD
1958 - 59: Milton Rosenbaum, MD
1959 - 60: Eric D. Wittkower, MD
1960 - 61: Morton F. Reiser, MS
1961 - 62: Stewart Wolf, MD
1962 - 63: Julius B. Richmond, MD
1963 - 64: Carl Binger, MD
1964 - 65: Eugene Meyer, MD
1965 - 66: Robert A. Cleghorn, MD
1966 - 67: Lawrence E. Hinkle, Jr., MD
1967 - 68: William A. Greene, MD
1968 - 69: Thomas H. Holmes, MD
1969 - 70: John W. Mason, MD
1970 - 71: Peter H. Knapp, MD
1971 - 72: Herbert Weiner, MD
1972 - 73: Margaret T. Singer, PhD
1973 - 74: Albert J. Stunkard, MD
1974 - 75: Alvin P. Shapiro, MD
1975 - 76: Sidney Cobb, MD
1976 - 77: Albert J. Silverman, MD
1977 - 78: Donald Oken, MD
1978 - 79: David T. Graham, MD
1979 - 80: Robert Ader, PhD
1980 - 81: Franz Reichsan, MD
1981 - 82: Robert M. Rose, MD
1982 - 83: Myron A. Hofer, MD
1983 - 84: C. David Jenkins, PhD
1984 - 85: Marvin Stein, MD
1985 - 86: Bernard T. Engel, PhD
1986 - 87: Jules Hirsch, MD
1987 - 88: Stanford B. Friedman, MD
1988 - 89: Richard H. Rahe, MD
1989 - 90: Donald S. Kornfeld, MD
1990 - 91: Karen A. Matthews, PhD
1991 - 92: Joseph D. Sapira, MD
1992 - 93: Redford B. Williams, MD
1993 - 94: Thomas N. Wise, MD
1994 - 95: Edwin H. Cassem, MD
1995 - 96: James A. Blumenthal, PhD
1996 - 97: Douglas A. Grossman, MD
1997 - 98: Margaret A. Chesney, PhD
1998 - 99: Joel E.Dimsdale, MD
1999 - 00: Oliver G. Cameron, MD, PhD
2000 - 01: Jean Endicott, PhD
2001 - 02: J. Richard Jennings, PhD
2002 - 03: Dennis H. Novack, MD
2003 - 04: Steven E. Locke, MD
2004 - 05: Nancy Frasure-Smith, PhD
2005 - 06: Richard D. Lane, MD, PhD
2006 - 07: Peter A. Shaprio, MD
2007 - 08: William L. Lovallo, PhD
2008 - 09: Matthew F. Muldoon, MD, MPH
2009 - 10: Shari Waldstein, PhD
APS is pleased to recognize the recipients of the Society’s highest honors:

Alvin P. Shapiro Award Recipients

2002: Stevo Julius MD, ScD
2003: Steve Schroeder, MD
2004: Timothy Quill, MD
2005: William Busse, MD
2006: C. Noel Bairey Merz, MD
2007: Patricia A. Ganz, MD
2008: Thomas Pickering MD, DPhil
2009: W. Thomas Boyce, MD
2010: Daniel Clauw, MD
2011: Lisa Rubenstein, MD

Patricia R. Barchas Award Recipients

1999: Bernard T. Engel, PhD
2000: Michael Meaney, PhD
2001: Charles B. Nemeroff, MD, PhD
2002: Michael Marmot, MPH, PhD
2003: John P. Capitanio, PhD
2004: John T. Cacioppo, PhD
2005: Janice Kiecolt-Glaser, PhD
2006: Sheldon Cohen, PhD
2007: Lennart Levi, MD
2008: Christopher L. Coe, PhD
2009: George A. Kaplan, PhD
2010: George Davey Smith, PhD
2011: Shelley Taylor, PhD

Paul D. MacLean Award Recipients

2010: Tor Wager, PhD
2011: Richard Davidson, PhD

Donald Oken Fellowship Recipients

2006: Elizabeth Lin, MD, MPH
2007: William Breitbart, MD
2008: Theodore A Stern, MD
2009: Kurt Kroenke, MD
2010: Jurgen Unutzer, MD
2011: James L. Levenson, MD

Herbert E. Weiner Early Career Award Recipients

1991: Michael R. Irwin, MD
1992: Timothy W. Smith, PhD
1993: J. Rick Turner, PhD
1994: Shin Fukudo, MD
1995: Paul J. Mills, PhD
1996: Julian F. Thayer, PhD
1997: Susan Everson, PhD
1998: Willems Kopp, PhD
1999: Alan J. Christensen, PhD
2000: Shari R. Waldstein, PhD
2001: Susan S. Girdler, PhD
2002: Susan K. Lutgendorf, PhD
2003: Dominique L. Musselman, MD
2004: Mustafa al’Absi, PhD
2005: Gregory E. Miller, PhD
2006: Mary A. Whooley, MD
2007: Roland von Kanel, MD
2008: Peter Gianaros, PhD
2009: Brigitte M. Kudielka, PhD
2010: Anna Phillips, PhD
2011: Naomi Eisenberger, PhD

President’s Award Recipients

1997: Monica Montgomery
1998: Dr. Bernard Lown
1999: Dr. David Hamburg
2000: Dr. John Mason
2001: Dr. Bruce S. McEwen
2002: Dr. David Shapiro
2003: Dr. Douglas A. Drossman
2004: Dr. Arthur J. Barsky
2005: Dr. Karen A. Matthews
2006: Dr. Hugo D. Critchley
2007: Dr. Wayne Katon
2008: Dr. Leanne Williams
2009: no award given
2010: Dr. Thomas Pickering, posthumously
2011: no award given

Please see pages 4 through 6 for a listing of receipients of the APS travel and scholarship awards.
Hotel Floor Plan

Third Floor
American Psychosomatic Society
70th Annual Scientific Meeting

March 14 - 17, 2012
Athens, Greece

The Call for Abstracts will be available summer 2011 with a due date of early October 2011. Keep yourself informed by frequently visiting www.psychosomatic.org.
